Dear Minister Dewar:

I am pleased to present the Annual Report of Manitoba Finance for the fiscal year ended March 31, 2015 for your consideration.

Overall, Manitoba Finance achieved performance targets and was under budget. These targets are based on the different priorities, objectives and actions set out in our 2014 Budget Estimates.

The report provides a summary of the key results for the five departmental operating divisions as well as the Priorities and Planning Committee of Cabinet Secretariat and the Premier's Economic Advisory Council.

Corporate Services Division provides executive administration, planning and management of departmental policies, programs and communication. Key results include co-ordinating and supporting the development of annual estimates for the department of Finance, the Civil Service Commission and Executive Council, in accordance with established timetables and accounting policies and a greater alignment of information technology investments with program needs. The division also managed the access to information requests under the *Freedom of Information and Protection of Privacy Act* for the department, the Civil Service Commission and the Executive Council.

The Treasury Division manages and administers provincial financial assets, including the borrowing programs and all investment and debt management activities of the government. Treasury staff also manage the borrowing programs and investment activities for all Crown corporations and government agencies, and assist in the arrangement of financing of municipalities schools and hospitals. The division managed the issuing of securities in both domestic and international markets valuing approximately \$5.3 billion, and serviced approximately \$4.0 billion in long-term investments of the province and its agencies, generating earnings of approximately \$233.0 million.

The Comptroller Division establishes and fosters a corporate comptrollership function for the government. This includes the development and operation of financial and management systems in support of legislative and governmental decision making, service delivery effectiveness and accountability requirements. The province's Summary Financial Statements for the fiscal year ended March 31, 2015 contained in the Annual Public Accounts received an unqualified audit opinion, indicating that the financial statements are prepared in accordance with generally accepted accounting principles and are free from material errors. Key results include 18 new departmental and cross-government audits, conducting approximately 938,000 payroll and vendor payment transactions, as well as issuing the Quarterly Financial Reports and Annual Public Accounts in accordance with established timetables and accounting policies.

The Taxation Division works to efficiently and effectively administer various provincial taxation statutes and ensures revenues are collected as required. For 2014/2015, 99.9 per cent of amounts owing to the province were collected. Key results include measures promoting self-compliance, such as developing or updating informational bulletins for taxpayers, ensuring taxpayer queries were answered in a timely manner, conducting new vendor reviews and ensuring audit and collection programs were effective. The

division also maintained TAXcess, an efficient online system relating to filing and payment of taxes, facilitating business registrations and permitting taxpayer browsing of account status. The division also participated in joint investigations with other agencies and jurisdictions.

The Taxation, Economic and Intergovernmental Fiscal Research Division conducts intergovernmental fiscal and policy relations, economic and fiscal analysis, tax policy formulation and management of tax credit programs. The division provided research, technical and analytical support and advice to the Minister and Cabinet regarding national and provincial economic, fiscal and taxation matters and intergovernmental issues. The Division prepared fiscal and taxation research and analysis for the development of the Budget, administered fiscal arrangements and tax administration agreements with the federal government and administered tax credit programs with the federal government, departments and other administrators. The division also provided policy analysis and advice related to fiscal arrangements, including on the renewal of major federal and other transfer programs and the Canadian retirement income system. The Federal-Provincial Relations Branch provided support to the Premier of Manitoba in his responsibilities as Minister of Federal-Provincial Relations, including his involvement in regular meetings of Canada's Premiers, annual Western Premiers' Conferences, bilateral meetings with the Prime Minister and other inter-jurisdictional meetings and conferences.

It is an honour and a privilege to submit this report which provides a summary of the valuable work accomplished by staff across the department.

Monsieur le Ministre,

J'ai l'honneur de vous présenter le rapport annuel du ministère des Finances pour l'exercice ayant pris fin le 31 mars 2015.

Globalement, Finances Manitoba a atteint les cibles de performance et a respecté le budget. Ces cibles reposent sur les priorités, les objectifs et les actions énoncés dans le Budget de 2014.

Le rapport fournit un résumé des résultats clés des cinq divisions du ministère ainsi que du Secrétariat du Comité du Cabinet chargé des priorités et de la planification et du Conseil consultatif économique du premier ministre.

La Division des services ministériels est en charge de l'administration exécutive, de la planification et de la gestion des politiques et de la communication du ministère. Les résultats clés comprennent la coordination et le soutien de l'élaboration des prévisions budgétaires annuelles du ministère des Finances, de la Commission de la fonction publique et du Conseil exécutif, conformément aux calendriers établis et aux conventions comptables, ainsi qu'une meilleure harmonisation des investissements en technologies de l'information avec les besoins des programmes. La Division a également géré les demandes d'accès à l'information en vertu de la *Loi sur l'accès à l'information et la protection de la vie privée* pour le compte du ministère, de la Commission de la fonction publique et du Conseil exécutif.

La Division de la trésorerie gère et administre les actifs financiers provinciaux, dont les programmes d'emprunt, et toutes les activités d'investissement et de service de la dette du gouvernement. Le personnel de la Division gère et administre également les programmes d'emprunt et les investissements pour toutes les sociétés d'État et les organismes gouvernementaux, et participe à l'organisation du financement des municipalités, des écoles et des hôpitaux. La Division a géré l'émission de titres, sur les marchés nationaux et internationaux, pour une valeur d'environ 5,3 milliards de dollars, et elle a assuré le service de quelque quatre milliards de dollars d'investissements à long terme de la Province et de ses organismes, générant des recettes d'environ 233 millions de dollars.

La Division du contrôleur établit et développe une fonction de contrôle pour le gouvernement. Cette fonction comprend l'élaboration et la mise en œuvre de systèmes financiers et de gestion qui apportent un soutien en ce qui concerne la prise de décisions législatives et gouvernementales, l'efficacité de la prestation des services et les exigences liées à l'obligation redditionnelle. Les états financiers sommaires de la Province pour l'exercice qui s'est terminé le 31 mars 2015 tels qu'ils sont représentés dans les comptes publics annuels ont reçu une opinion sans réserve des vérificateurs, ce qui indique que les états financiers sont préparés conformément aux principes comptables généralement reconnus et exempts d'erreurs importantes. Les résultats clés comprennent 18 nouvelles vérifications ministérielles et interministérielles, la conduite d'environ 938 000 opérations de paiement aux salariés et aux fournisseurs, ainsi que la publication des rapports financiers trimestriels et des comptes publics annuels conformément aux calendriers et aux conventions comptables établis.

La Division des taxes et des impôts applique avec efficience et efficacité diverses lois fiscales provinciales et veille à ce que les recettes soient perçues tel que cela est requis. Au titre de l'exercice 2014-2015, 99,9 % des sommes dues à la Province ont été collectées. Les résultats clés comprennent des mesures favorisant l'autoconformité, telles que l'élaboration ou la mise à jour des bulletins d'information destinés aux contribuables, la réponse dans les délais prévus aux demandes des

contribuables, l'examen de nouveaux fournisseurs et l'évaluation de l'efficacité des programmes de vérification et de perception. La Division a également géré TAXcess, un système efficace de dépôt de déclarations et de paiement de taxes et d'impôts en ligne, qui facilite l'enregistrement des entreprises et permet aux contribuables de vérifier l'état de leur compte en ligne. La Division a également participé à des enquêtes conjointes avec d'autres organismes et autorités administratives.

La Division des recherches fiscales, économiques et intergouvernementales s'occupe des relations intergouvernementales en matière de fiscalité et de politiques, des analyses des questions d'économie et de fiscalité, de la formulation des politiques fiscales et de la gestion des programmes de crédit d'impôt. La Division a fourni au ministre et au Cabinet un soutien et des conseils d'ordre technique ainsi qu'en matière de recherche et d'analyse, relativement aux questions économiques et fiscales (tant nationales que provinciales) et aux questions intergouvernementales. La Division a effectué des recherches et des analyses fiscales en vue de l'élaboration du Budget, a administré des arrangements fiscaux et des ententes d'administration de l'impôt avec le gouvernement fédéral, et a administré des programmes de crédit d'impôt avec le gouvernement fédéral, des ministères et d'autres administrateurs. La Division a également fourni des analyses et des conseils en matière de politiques ayant trait aux arrangements fiscaux, y compris le renouvellement des principaux programmes de transfert, notamment fédéraux, et le système de revenu de retraite au Canada. La Direction des relations fédérales-provinciales a aidé le premier ministre du Manitoba à assumer ses responsabilités de ministre des Relations fédérales-provinciales, notamment en ce qui concerne sa participation aux réunions régulières des premiers ministres du Canada, aux conférences annuelles des premiers ministres de l'Ouest, aux rencontres bilatérales avec le premier ministre fédéral, et aux autres réunions et conférences intergouvernementales.

C'est un honneur et un privilège pour moi, Monsieur le Ministre, de déposer à votre attention ce rapport qui offre un résumé du remarquable travail accompli par le personnel du ministère.

Le tout respectueusement soumis.

FISCAL AND FINANCIAL MANAGEMENT

Treasury

The Treasury Division manages and administers the cash resources, borrowing programs, and all investment and debt management activities of the government. It further manages the borrowing programs and investment activities for all of its Crown corporations and government agencies. The division assists in the financing of municipalities, schools and hospitals and it is the division's responsibility to ensure that such financing is arranged.

Major changes are continually taking place in the world's economic and financial markets. These changes have a significant impact on both short and long-term management strategies, as well as the day-to-day decisions made by Treasury Division staff.

The division maintains contact with a large number of domestic and foreign financial institutions, as well as regulatory and rating agencies, to inform them of the fiscal and economic performance of the province and its policies, while at the same time obtaining information about the state of world financial markets and financial products and opportunities available to the province.

Results:

- Maintained the best possible financial arrangements that minimize risk and cash flow requirements for the province, Crown corporations, government agencies, school boards, hospitals and municipalities.
- Ensured policies, legislation and regulations are sufficient for the needs of the government.
- Ensured investment returns are the maximum possible within acceptable risk parameters.
- Issued securities in both domestic and international markets valuing approximately \$5.3 billion.
- In 2014/15, provincial borrowings serviced by the division were represented by debentures, savings bonds, treasury bills, promissory notes and Canada Pension Plan debentures payable in Canadian dollars. Borrowings also include: 14 debenture issues payable in United States dollars; two debenture issues payable in Swiss Francs; five debenture issues payable in Euros; one debenture issue payable in Hong Kong dollars; one debenture issue payable in New Zealand dollars; three debenture issues payable in Australian dollars and two debenture issues payable in Japanese Yen. In servicing foreign issues, the division administered approximately 330 swap agreements whereby, all the foreign debt has been swapped into fixed or floating rate Canadian or United States dollar liabilities in order to mitigate risk to foreign currency fluctuation.
- Maintained records for investments in, or advances to government programs, Crown corporations and government agencies. During 2014/15 the division advanced approximately \$2.2 billion and the aggregate amount of investments outstanding at March 31, 2015 was approximately \$16.3 billion.
- The Cash Management program managed the cash flow and investment of significant dollar amounts processed through the accounts of the government.
- Departments, agencies and Crown corporations deposited surplus funds with the Minister of Finance in over 90 interest-bearing trust deposits. These trust funds averaged \$1.0 billion in 2014/15 and interest paid on these trust accounts was approximately \$9.3 million.
- Serviced approximately \$4.0 billion in long-term investments of the province and its agencies, generating earnings of approximately \$233.0 million.
- Serviced approximately \$2.0 billion in short-term investments of the province, which required daily processing of transactions representing purchases, sales and maturities. This servicing was accomplished while maintaining loss-free safekeeping, payment and receipt operations.

Comptroller

The Comptroller Division establishes and fosters a corporate comptrollership function for the Manitoba government that includes the development and operation of financial and management systems in support of legislative and governmental decision-making, service delivery effectiveness and accountability requirements.

Taxation

The Taxation Division is responsible for efficiently and effectively administering the following provincial taxation acts and ensuring revenues are collected as provided in these acts:

The Corporation Capital Tax Act

The Credit Unions and Caisses Populaires Profits Tax Act

The Emissions Tax on Coal and Petroleum Coke Act

The Fuel Tax Act

The Health and Post Secondary Education Tax Levy Act

The Mining Tax Act

The Retail Sales Tax Act

The Tax Administration and Miscellaneous Taxes Act

The Tobacco Tax Act

The continuing phase-out of *The Succession Duty Act*

Activities of the division include administering the collection, processing and reporting of taxation revenues; informing, investigating and auditing taxpayers and businesses; and developing and distributing public tax information to protect revenue by promoting voluntary compliance.

Actual revenues for the 2014/15 fiscal year under the taxation acts noted above as well as for the Mining Claim Lease Tax, Environmental Protection Taxes and Insurance Corporations Tax, were \$3.4 billion, which was less than estimated revenues by \$97.1 million.

Revenue variances by source are discussed in the Revenue Variance Explanations section (pages 34 and 35). The major variances from the estimate are as follows:

- Tobacco Tax revenue was less than the estimate by \$30.3 million, due to reduced consumption and market growth of e-cigarettes.
- Mining Tax revenue was less than the estimate by \$25.6 million, due to lower base metal prices which decreased mining profits.
- Corporation Capital Tax revenue was less than the estimate by \$19.7 million, due to financial institutions' reduced taxable capital and allocations to Manitoba.

Further details on all taxation revenues are presented in the Revenue Summary by Source table (page 33).

The following table details the historical revenues collected under the taxation acts noted above for the past five years:

Insurance and Risk Management

The Manitoba Comptrollership Framework defines risk management as “a systematic approach to setting the best course of action under uncertainty by identifying, assessing, understanding, communicating and acting on risk issues.” The Insurance and Risk Management Branch works with departments and agencies to reduce the impact of uncertainty upon organizational goals and to protect assets and programs through management of risk.

Activities of the branch include: recommending appropriate risk control measures; administering insurance related claims; reviewing contracts, requests for proposals, legislation and commercial insurance; implementing risk financing measures including self-insurance and commercial insurance; and contributing to Manitoba government policy on risk management.

Results:

- Assisted departments and agencies in conducting risk assessments of programs and facilities.
- Commercial insurance premiums paid during 2014/15 fiscal year were \$2.2 million for departments and \$2.5 million for agencies. This represented an overall increase of two per cent compared to the previous year for standard insurance coverage.
- Additional costs resulted from increasing value of Manitoba assets, including buildings. These costs were offset by lower rates on some policies resulting from competitive insurance markets.
- Agency Self-Insurance Fund premiums collected were \$5.9 million, a 2.3 per cent increase from the previous year. Manitoba Housing’s annual property losses have the largest influence on self-insurance costs.
- Owner-controlled construction insurance was purchased for several larger infrastructure projects.
- Department-retained losses (including new reserves and claim payments) in 2014/15 totalled \$4.7 million (\$4.4 million property claims plus \$0.3 million liability claims). This was an increase of 40 per cent from the previous year.
- Costs for independent adjusters for department claims were \$29,052, a decrease of 32 per cent from the previous year.
- Opened 395 new department claims and closed 151 claims.
- Under the Foster Parents’ Intentional Damage Compensation Plan, 153 claims were reported in 2014/15 and settlement payouts totalled \$333,234 (250 per cent increase over 2013/14) plus administrative costs of \$29,956 (increase of 21 per cent from previous year). Loss severity and frequency was more significant this past year.
- Agency-retained losses, including new reserves and claim payments, in 2014/15 totalled \$7.6 million (\$7.2 million property claims and \$0.4 million liability claims), a decrease of 13.3 per cent from the previous year.

- Costs for independent adjusters for agency claims were \$237,351, an increase of 13.3 per cent from the previous year.
- Opened 261 new agency claims and closed 209 claims.
- Assisted departments, agencies, especially Civil Legal Services and Procurement Services, with numerous contract reviews, legislative requirements and insurance and indemnification phrasing and concerns.
- Collaborated with Organizational Staff Development (OSD) in the delivery of risk management courses and with Crown Corporations Council in the delivery of risk management sessions for board members.

Less: Recoverable from Other Appropriations	(2,188)		(2,770)	582	1
Total Sub-appropriation	530	5.00	506	24

**Expenditure Variance Explanations
for expenditures for the fiscal year ended March 31, 2015 as compared to figures for the previous fiscal year**

Explanation Numbers:

1. Decrease is due to unanticipated retirement costs in 2013/14.
2. Increase is due to an increase in the estimate of the bad debt provision in 2014/15, as required under generally accepted accounting principles to reflect the uncertainty of collection of receivable balances as at year end.
3. Increase is primarily due to prior year adjustments based on more current income tax data.
4. Decrease is primarily due to the decrease in the long-term interest rates.

The Public Interest Disclosure (Whistleblower Protection) Act

The Public Interest Disclosure (Whistleblower Protection) Act came into effect April 2007. This law gives employees a clear process for disclosing concerns about significant and serious matters (wrongdoing) in the Manitoba public service, and strengthens protection from reprisal. The Act builds on protections already in place under other statutes, as well as collective bargaining rights, policies, practices and processes in the Manitoba public service.

Wrongdoing under the Act may be: contravention of federal or provincial legislation; an act or omission that endangers public safety, public health or the environment; gross mismanagement; or knowingly directing or counselling a person to commit a wrongdoing. The Act is not intended to deal with routine operational or administrative matters.

A disclosure made by an employee in good faith, in accordance with the Act, and with a reasonable belief that wrongdoing has been or is about to be committed is considered to be a disclosure under the Act, whether or not the subject matter constitutes wrongdoing. All disclosures receive careful and thorough review to determine if action is required under the Act, and must be reported in a department's annual report in accordance with Section 18 of the Act.
