2014 – 2015 Revenue Estimates

PREFACE

This document has been produced by the Department of Finance and is intended to complement information provided in the 2014/15 Estimates of Revenue. This includes a description of the revenue source or, where applicable, a further breakdown of the source into more specific components. It is hoped this additional information will assist members of the Legislature in their review of the revenue estimates.

A Summary by Department provides information on all revenues estimated to be collected by each department for 2014/15 with comparative estimates of revenue for 2013/14. In order to make year-over-year comparisons meaningful, adjustments to the previous year's estimates figures may have been necessary. These adjustments may reflect organizational changes, as well as any other adjustments that may be required to ensure comparability. Normally, the total of the previous year's estimates of revenue does not change as a result of these adjustments.

The contents of this supplement are organized in the same manner as the 2014/15 Estimates of Revenue in order to allow for ease of use. Revenues are grouped into three main sources: Taxation, Other Revenue, and Government of Canada.

Taxation revenues are reflected, as in the Estimates of Revenue, under the department responsible for collection. Descriptive information for taxation revenues includes the base upon which the tax is assessed and the formula for determining the amount owing.

Other Revenue encompasses all the fees and charges levied by departments as a part of their program delivery. This includes recovery of costs for goods or services provided to Crown corporations and other government agencies. Recoveries from other government departments are credited back to expenditure appropriations as a part of the Estimates of Expenditure. Other Revenue also includes funds transferred from Crown corporations, revenue sharing payments from special operating agencies and proceeds from the sale of government owned assets.

Wherever applicable, the main fees or ranges of individual fees are provided in these documents or references on where to obtain the actual schedules are provided.

Government of Canada revenues are identified by major program including: Equalization, Canada Health Transfer (CHT), Canada Social Transfer (CST) and Infrastructure Renewal. The final grouping of Other includes all Canada/Manitoba agreements to fund specific programs. The supplement provides a brief description of the basis of cost sharing for each program.

Additional information on all revenue sources is available from the collecting department or agency.

Honourable Jennifer Howard
Minister of Finance
