

THE RETAIL SALES TAX ACT

CLOTHING, FOOTWEAR AND ACCESSORIES

This bulletin explains how retail sales tax (RST) applies to clothing, footwear and accessories, including children's clothing and footwear.

SECTION 1 – GENERAL INFORMATION

- RST is an 8% tax applied to the retail sale or rental of most goods and certain services in Manitoba. The tax is calculated on the selling price, before the Goods and Services Tax (GST) is applied.
- RST is generally payable on the purchase of clothing, footwear and accessories, except for the exemptions discussed below.

SECTION 2 – CHILDREN'S CLOTHING, FOOTWEAR AND ACCESSORIES

General Information

- Children's clothing, footwear and accessories priced over \$150 are subject to RST. Clothing, footwear or accessories ordinarily sold as a set must be regarded as a single item. For example, a suit consisting of a jacket and pants (or skirt) is taxable if the selling price of the suit is greater than \$150.

Tax Exemption Based on Size

- Children's clothing, footwear and accessories within the size ranges shown in the attached Schedule A are exempted from RST if the selling price is \$150 or less. The seller is not required to obtain any certification from the customer when allowing the tax exemption in these size ranges.

Tax Exemption Based on Age

- An RST exemption is also available for clothing, footwear and accessories larger than the sizes shown in Schedule A if the selling price is \$150 or less and the clothing, footwear or accessory is bought for a person 14 years of age or under. To allow this exemption, the seller is required to obtain a written certification from the customer, attesting that the purchase is for a child 14 years of age or under. The certification must include the following information:
 - Date
 - Description of items purchased
 - Invoice number
 - Price
 - Purchaser's name
 - Purchaser's address

Note: Revisions to the previous Bulletin (July 2013) have been identified by shading ().

- Purchaser's phone number
- Purchaser's signature and certification
- The certification must state the following: "I certify the clothing, footwear or accessory exempted on this sale is being purchased for a child 14 years of age or under, and the information provided is true and correct."
- The above information must be recorded on the sales invoice (written, stamped or cash register generated) or as a separate declaration.
- **Note:** The information collected for the certification is personal information, which must be treated as confidential and be protected and stored accordingly. Log or petition style forms where certifications are recorded for multiple customers on a single form may not meet current federal privacy standards. A separate certification form for each customer should be considered, such that personal information is not disclosed to other customers.

Privacy practices for vendors in Manitoba are governed by the federal *Personal Information Protection and Electronic Documents Act*. Vendors should refer to that Act or the Office of the Privacy Commissioner of Canada for more information on privacy requirements.

- If a fully completed and signed certification is not obtained, the sale is taxable. The seller is responsible for the RST owing, if tax is not collected and the completed certification is not retained.
- All sales invoices and information collected must be kept for tax audit purposes. See Bulletin No. 016, *Record Keeping Retention Requirements* for additional information.

Catalogue or Internet Sales

- Vendors who sell children's clothing, footwear or accessories by mail order must obtain the required information and certification from the purchaser on the order form to support the RST exemption on items purchased for children 14 years of age or under that do not fall within the exempt size ranges. Vendors that sell via the internet or over the phone must have the required information documented on the order form to support the exemption. Vendors must collect the tax on sales where the information/ certification requirements are not met.
