

## Action Plan: Manitoba Chiropractors Association (MCA)

In response to the Fairness Commissioner's recommendation, MCA proposed the following Action.

Progress Opportunities	Action Plan	Completion Date
1. Accurate, updated registration information is needed for individuals trained in academic programs not recognized by CCEB.	We will review what may be possible on the type of education needed and possible remedial coursework opportunities for applicants trained outside of CCEB recognized academic programs. Upon this review, we will update our registration information accordingly.  In the interim, MCA is committed to work with any applicant in this circumstance to see what may be possible.	December 2018
2. Continuing work with the OMFC to improve data collection will help provide a strong, fact-based understanding of timelines and outcomes for internationally educated applicants in Manitoba. This includes the need to explore data collection from CCEB to ensure we have a good understanding of internationally educated chiropractors from Manitoba who engage the national process.	The MCA will reach out to CCEB and attempt to create a communication protocol for those taking the CCEB and those that consent to information exchange.	February 2018
