

## **Autism Parent Information Session**

Parents will receive a presentation on the two publicly funded autism early intervention services that are available to support their child's development: Preschool Autism Outreach Services and the St.Amant Autism Programs. Parents will also learn about the services and supports available through the Children's disABILITY Services program.

This presentation is recommended for parents whose preschool age child has been recently diagnosed with autism. Parents will receive important information that will help with making an informed decision on the services that best meet their families' needs.

Parents will be able to ask questions to the service providers and will receive service application forms for services prior to the information session.

Please see the reverse side of this sheet for the next scheduled Autism Parent Information Session, and register for the session by calling St.Amant at 204-256-4301 ext. 3443 or by emailing [autismprograms@stamant.ca](mailto:autismprograms@stamant.ca). Parents are encouraged to attend this session in order to apply for services through Autism Outreach or the St.Amant Autism Programs.

Please note that the session is approximately two hours. All monthly information sessions are done via Zoom.

The session will review services in the city of Winnipeg as well as services outside of Winnipeg in rural areas. Please note that for families living in rural areas, some of the services presented at the session may differ from those available in your region.
