

PURPOSE

The purpose of the intake process with the Community Living disABILITY Services program is to:

- respond to initial requests or referrals for services in a timely manner;
- inform the individual about the mandate and eligibility criteria for the Community Living disABILITY Services program;
- gather additional information where required to verify the individual's eligibility for services; and
- determine whether the individual is eligible for services.

Note: Regional staff are obligated to determine eligibility and intervene as quickly as possible where an individual requires protection or is experiencing crisis. Refer to Crisis Intervention and Protection - Sections C111 and C99 respectively.

PROCESS

Intake begins with the receipt of a completed Application for Community Living disABILITY Services form. Any adult with a mental disability may self-refer or be referred through other sources. Such sources may include but are not limited to:

- immediate or extended family members;
- friends or neighbours;
- advocates or volunteers;
- teachers or other instructors;
- physicians or other medical personnel;
- external social service agencies; or
- other departmental staff, such as Employment and Income Assistance, Child and Family Services, or Children's disABILITY Services staff..

Note: In keeping with the protocols for Transition Planning, a referral or request for services is accepted for an individual two years prior to his/her 18th birthday, where it is anticipated that the individual may require services from the Community Living disABILITY Services program as an adult.

Although the intake process may vary with individuals who are not adults at the time of intake, the same criteria are followed for the determination of eligibility (refer to Transition Planning - Section C166.2).
