- **change from one service licence holder (employer) to another** - A technician who wishes to be employed by more than one land system, or wishes to transfer between land systems, are encouraged to have their new employer submit notification to the MHSAL EMS Branch (verification of employment form) prior to starting to provide services with the alternate or additional land system
- **voluntary non-renewal of licence** – if it is your intent not to renew your licence, send a letter or email to the MHSAL EMS Branch stating such before the expiry date on your licence

### Maintenance of Licence

EMS personnel are required to maintain current certifications applicable to their licensing level (e.g. CPR, ACLS, etc.)

EMS personnel are required to participate in the Manitoba Continuing Competency Program for Paramedics (MCCPP). Specific requirements for each licensing level can be found on the EMS web site: [www.gov.mb.ca/health/ems/licensing/1/1.2.b.html](http://www.gov.mb.ca/health/ems/licensing/1/1.2.b.html)

An annual report verifying that you have met the minimum mandatory and optional requirements is to be submitted annually to MHSAL EMS Branch, 60 days prior to the anniversary date of your licence. Licence expiry anniversary date is the month and day listed on your licence. (example; if your expiry date is July 31, 201X then your licence anniversary date is July 31).

*Personnel who have not met the annual requirements of the MCCPP may have their licence suspended.*

MCCPP modules are accessible online through the Paramedic Association of Manitoba (PAM) or through an EMS employer.
