

Given the limited options available for pediatric patients requiring a biologic medication, tiering of biologics for this patient population is not in effect. Please refer to existing EDS criteria.

Dermatology (Plaque Psoriasis)

Tier 1
Cosentyx (secukinumab)
*Erelzi (etanercept)
Humira (adalimumab)
Inflectra (infliximab)
Renflexis (infliximab)
Siliq (brodalumab)
Skyrizi (risankizumab)
Taltz (ixekizumab)
Tier 2
Enbrel (etanercept)
Remicade (infliximab)
Stelara (ustekinumab)

Gastroenterology (Crohn's/Fistulizing Crohn's Disease)

Tier 1
Entyvio (vedolizumab)
Humira (adalimumab)
Inflectra (infliximab)
Renflexis (infliximab)
Tier 2
Remicade (infliximab)

Gastroenterology (Ulcerative Colitis)

Tier 1
Entyvio (vedolizumab)
Humira (adalimumab)
Inflectra (infliximab)
Renflexis (infliximab)
Simponi (golimumab)
*Xeljanz (tofacitinib)
Tier 2
Remicade (infliximab)

Rheumatology (Ankylosing Spondylitis)

Tier 1
Brenzys (etanercept)
Cimzia (certolizumab pegol)
Cosentyx (secukinumab)
Erelzi (etanercept)
Humira (adalimumab)
Inflectra (infliximab)
Renflexis (infliximab)
Simponi (golimumab)
Tier 2
Enbrel (etanercept)
Remicade (infliximab)

Rheumatology (Psoriatic Arthritis)

Tier 1
Cimzia (certolizumab pegol)
Cosentyx (secukinumab)
Erelzi (etanercept)
Humira (adalimumab)
Inflectra (infliximab)
Renflexis (infliximab)
Simponi (golimumab)
Taltz (ixekizumab)
Tier 2
Enbrel (etanercept)
Remicade (infliximab)

Rheumatology (Rheumatoid Arthritis)

Tier 1
Actemra (tocilizumab)
Brenzys (etanercept)
Cimzia (certolizumab pegol)
Erelzi (etanercept)
Humira (adalimumab)
Inflectra (infliximab)
Kevzara (sarilumab)
Orencia (abatacept)
Renflexis (infliximab)
*Riximyo (rituximab)
*Ruxience (rituximab)
Simponi (golimumab)
Simponi IV (golimumab)
Truxima (rituximab)
Xeljanz (tofacitinib)
Xeljanz XR (tofacitinib)
Tier 2
Enbrel (etanercept)
Kineret (anakinra)
Remicade (infliximab)
Rituxan (rituximab)

*Effective October 22, 2020
