Hand Hygiene

**Using Soap and Water**

Use in all situations where soap and water are available

- Rinse hands with warm running water, add soap to palms and rub hands together to create lather
- Thoroughly cover all the surfaces of your hands and fingers (including nails) for 15 to 20 seconds
- Rinse under warm running water
- Dry hands thoroughly with single-use towel or hand dryer
- Turn off the tap with a clean paper towel

**Using an Alcohol-Based Hand Rub**

Use when soap and water are NOT available, except if hands are visibly soiled

- Take a small amount of alcohol-based hand rub (about the size of a nickel)
- Rub it on your fingertips, both sides of your hands and between your fingers
- Continue to rub until your hands are dry
- There is no need to rinse or dry

Warning: The product is flammable when wet so ensure your hands are dry before performing another task.
