Special Delivery Instructions:

Open for Saturday Deliveries: _____ Circle: yes / no

MHSAL recommends that dosing schedules be verified with the current *Canadian Immunization Guide* and product monographs.

Vaccines and Biologics	Brand	Packaging	No. of Boxes	Product Code
Seas Inf (Influenza - QIV)	Fluzone® Quadrivalent or Flulaval® Tetra (Quadrivalent)	10 dose vial - 1 per box		1715072 or 1715079
Seas Inf (Influenza Thimerosal-free - QIV)	Fluzone® Quadrivalent	Single dose syringe - 10 per box		1715073
Seas Inf (Influenza Nasal Spray - QLAIV)	FluMist® Quadrivalent	Single dose glass sprayer - 10 per box		1715068
Pneu-P-23 (Pneumococcal Polysaccharide)	Pneumovax 23®	Single dose vial - 1 per box		1715012

Product must be stored in a temperature monitored refrigerator that is kept between 2-8°C. For more information see the Manitoba Health, Seniors and Active Living Cold Chain Resources Website at www.gov.mb.ca/health/publichealth/cdc/coldchain.html.

MHSAL' Seasonal Influenza Supply and Distribution website (www.gov.mb.ca/health/flu/distribution.html) will be updated accordingly to indicate an approximate date of when health care providers may expect to receive their shipment.

All Manitobans 6 months of age and older will be eligible to receive the 2018/19 seasonal influenza (flu) vaccine free-of-charge.

Individuals 65 years of age and older as well as those at most risk for invasive pneumococcal disease are eligible to receive the pneumococcal polysaccharide (Pneu-P-23) vaccine free-of-charge.

Providers/facilities can start placing their flu and/or Pneu-P-23 vaccine order between August 15, 2018 and September 14, 2018, using this form.

Orders received prior to August 15th will NOT be accepted and will need to be resubmitted on, or after, August 15, 2018.

All flu/Pneu-P-23 vaccine orders will be shipped according to the following schedule:

1. Hospitals, long-term care facilities and First Nations communities
2. Providers/facilities with client ID (holding point #) ending in 0, 1, 2 or 3
3. Providers/facilities with client ID (holding point #) ending in 4, 5 or 6
4. Providers/facilities with client ID (holding point #) ending in 7, 8 or 9
5. Providers/facilities that order after 4 p.m. on September 14, 2018.

All providers/facilities MUST order based on the amount administered last year to reduce wastage. **Failure to reconcile vaccine doses ordered with administered may result in providers/facilities receiving fewer doses than ordered.** It is therefore paramount that all flu vaccine doses administered be reported to MHSAL. **Flu vaccine wastage should be less than 10% at the end of the season.** Subsequent orders can be placed (at no penalty to the provider/facility), while supplies last.
