<table>
<thead>
<tr>
<th>Contact Name</th>
<th>E-Mail Address (if available)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phone Number</td>
<td>Fax Number</td>
</tr>
</tbody>
</table>

Requirements and Resources

• Only order a one month supply of vaccines at a time.
• The provision of Manitoba Health’s publicly-funded vaccines should be based on the Manitoba Health Immunization Schedule or on eligibility criteria (http://www.gov.mb.ca/health/publichealth/cdc/vaccineeligibility.html).
• Vaccines for TRAVEL, OCCUPATIONAL HEALTH or EDUCATION PURPOSES are NOT covered by Manitoba Health (with the exception of Rabies vaccines for Occupational Health and Influenza vaccine for all Manitobans).
• Please refer to the Manitoba Health CDC website at http://www.gov.mb.ca/health/publichealth/cdc/index.html for all Immunization schedules, information, and resources.
• Vaccines are to be stored between 2°C to 8°C in an appropriate temperature-monitored refrigerator. Refer to the Manitoba Health Cold Chain Protocol at http://www.gov.mb.ca/health/publichealth/cdc/coldchain.html.
• BAR FRIDGES SHOULD NOT BE USED FOR VACCINE STORAGE.

Note: According to The Public Health Act patients are not to be charged for publicly-funded vaccines or administration.

I have read the “Requirements and Resources” section and have the proper storage and temperature monitoring procedures in place.
