

# Manitoba Take Home Naloxone Distribution Site Directory

## General Information

Anyone who takes an opioid is at risk for opioid overdose or poisoning, whether the opioids are obtained by prescription, illegally, or taken accidentally when a drug is poisoned with opioids. Opioids affect the part of the brain that controls breathing. When too much of an opioid is taken, breathing slows or stops. Naloxone can temporarily reverse an opioid overdose or poisoning, and restore breathing in a few minutes. It is not a narcotic, is non-addictive, and has no effect if opioids are not present. Naloxone is a safe medication with few side effects. **Naloxone itself does not replace the need to seek immediate medical attention. Call 911 immediately if you suspect a drug overdose or toxicity.**

Members of the public who are at risk of an opioid overdose/poisoning, and friends and family of people who are at risk of opioid overdose/poisoning, are eligible for free training and a free Take Home Naloxone kit from a distribution site. The training covers overdose prevention, recognition, and response, including how to administer naloxone.

Naloxone for use in the workplace is not covered under this program, but can be purchased from a community pharmacy that sells naloxone kits.

### The Manitoba Take-Home Naloxone kits contain:

- instruction sheet (French and English)
- alcohol Swabs
- gloves and a breathing mask to protect the responder
- four Vanish Point® syringes
- pill bottle containing four ampoules of naloxone
- four ampoule breakers

## Take Home Naloxone Kit Distribution Locations

Take home naloxone distribution sites are listed by health region and community. Site contact information is not guaranteed to be accurate. Please contact the site directly to confirm availability and details of their service. Some sites may only serve specific populations.

Sites that are not open to the public (e.g. emergency departments, substance/addictions services) are not included in this directory. Sites that have not ordered naloxone kits for more than two years are not included in this directory. For more information on the program please visit <https://www.gov.mb.ca/health/publichealth/naloxone.html>

Distribution site information can be updated by distribution sites only. Please complete and submit a new Distribution Site Agreement and Registration Form located at: <https://www.gov.mb.ca/health/publichealth/naloxone.html>
