

## Neighbourhoods Alive!

### Community-Led Model of Neighbourhood Revitalization

#### Description:

The **neighbourhoods themselves** (residents, other local stakeholders) have the lead role in identifying revitalization priorities and developing and implementing a plan for addressing them.

The **neighbourhood renewal corporations** are the instrument for bringing a neighbourhood together, representing its interests and implementing its will.

**Neighbourhoods Alive!** provides tools and resources designed to support a community-led approach to neighbourhood revitalization.
