## Move In and Move Out

A Unit Condition Report provides a detailed description of the condition of a unit. This report is completed when a tenant moves in and when they move out.

Accurate completion of the report is important to protect both the tenant and Manitoba Housing when determining who will be financially responsible if there are any damages or needed repairs.

Tenants are encouraged to carefully review the report before signing to ensure the condition of the unit is accurately documented.

-----  
If you have questions about any of the above information please contact your Property Manager or Tenant Services Coordinator.

Available in alternate format on request.
