

Manitoba Housing

Manitoba Housing Maintenance Responsibilities

Manitoba Housing will provide tenants with well-maintained homes, buildings and common use areas. Maintaining properties includes things like snow removal and grounds keeping in common-use areas.

Normal wear is expected in occupied homes and the landlord will be responsible for these repairs as needed.

Tenants must let Manitoba Housing know of any maintenance or repair issues as soon as possible. Manitoba Housing will address these issues in a timely manner.

If you have questions about any of the above information please contact your Property Manager or Tenant Services Coordinator.

Available in alternate format on request.
