

Manitoba Housing

Guests - New

Manitoba Housing recognizes that tenants have guests from time to time. Tenants are held responsible for their guest's actions and should keep this in mind when inviting guests onto the property.

A guest can stay with a tenant for up to one month. When a guest's stay will exceed one month, tenants must first obtain approval to have the length of stay extended or have their guest apply to the program to become a household member, provided they are eligible.

Adding a household member may change the number of bedrooms required and/or the program subsidy received by the household.

If you have questions about any of the above information please contact your Property Manager or Tenant Services Coordinator.

Available in alternate format on request.
