

Manitoba Housing

Manitoba Housing Initiated Move

Manitoba Housing follows the *Residential Tenancies Act* and will initiate a tenant move under the following circumstances:

- when major renovations are being done to the property
- when the property changes use and is no longer a rental property
- when the unit or building has been sold
- when the building is being demolished

Under the *Residential Tenancies Act* tenants must move when requested under these circumstances, however, Manitoba Housing will attempt to find a suitable home in the same community for the household, where possible.

If you have questions about any of the above information please contact your Property Manager or Tenant Services Coordinator.

Available in alternate format on request.
