## Abandoned Unit

Before moving out, tenants are required to provide one full calendar month's written notice.

Manitoba Housing considers a home abandoned when the tenant vacates without giving proper notice to end the tenancy and rent has not been paid.

When it has been determined that a home has been abandoned, the tenant's account will be charged for the next full month's rent and any costs for cleaning, damages and disposal of abandoned goods. To avoid these extra charges, tenants are encouraged to communicate with Manitoba Housing staff when considering a move.
