

Manitoba Housing

Unit Offer

Manitoba Housing works closely with approved applicants to ensure that they receive an offer of housing that best meets the needs of the household in their desired location.

Because of the relationship Manitoba Housing forms with the approved applicant prior to an offer, only one offer is made. An applicant can refuse the one offer only if they meet specified criteria that are supported by documentation.

High program demand requires approved applicants to respond to an offer of housing within three days.

Program restrictions, such as limited housing supply in a specific location, unit size and amenities, may limit available options or extend wait times.

If you have questions about any of the above information please contact your Property Manager or Tenant Services Coordinator.

Available in alternate format on request.
