

Geoscientific Map MAP2015-1

Surficial geology of the North Knife and South Knife lakes area (west half), Manitoba (parts of NTS 64I2–7, 10, 11)

By M.S. Gauthier
Manitoba Geological Survey
Manitoba Growth, Enterprise and Trade

CONTENTS

This zipped dataset contains:

1. Map PDF (1:100 000 scale)
2. ESRI® Shapefiles and layer files
3. This ReadMe PDF file

FILES

In the root directory:

ReadMe_MAP2015-1.pdf – this file
MAP2015-1.pdf – Surficial geology map

FOLDERS

\layer_files – contains the major feature classes as ESRI® layer files

\shape_files – contains the major feature classes as ESRI® shapefiles

\Support – contains TrueType® fonts

REQUIREMENTS

Viewing the included data requires either ESRI® ArcMap™ or similar GIS software capable of reading ESRI® shapefiles.

The documents in this zipped dataset are in Adobe® Portable Document Format (PDF) and require Adobe® Acrobat® Reader version 10 or newer for viewing and printing. The free reader can be downloaded from Adobe® at <http://get.adobe.com/reader/>
