

Figure 9: Quaternary stratigraphy present at section 112-16-412: **a)** Stratigraphic log of section 112-16-412. Till sample numbers are in white boxes. Munsell colour from Munsell Color-X-Rite, Incorporated (2015); **b)** View of the contact between till and post-glacial sand and gravel; **c)** Sandy-gravel logged at the section; **d)** Olive diamict logged at the section; **e)** Lodged in-situ boulder with parallel striae on its top surface. Ice-flow trajectory indicated is 220°; **f)** Lodged in-situ boulder with parallel striae on its top surface. Ice-flow trajectory indicated is 226°; **g)** View from river level of the exposed Quaternary sediments. Abbreviation: m bgs, meters below ground surface.
