

Figure 22: Till-matrix (<2 and <63 μm size-fraction) Zn values, Nickel Lake and surrounding area. **a)** Till-matrix (<63 μm size-fraction) Zn concentrations; **b)** Till-matrix (<2 μm size-fraction) of till Zn distribution; **c)** Till-matrix (<2 μm size-fraction) Zn values from the Agassiz Metalloctect; **d)** Box plot of Zn values for each region identified in c); **e)** Scatter plot comparison between the <63 μm size-fraction and <2 μm size-fraction Zn values for the Nickel Lake area.
