

# GLOBAL REACH, CANADIAN VALUES.

Canadians are leaders in developing successful mines around the world. Our mining companies account for almost 10% of the money Canada invested abroad in the last decade, improving the quality of life for millions of people.

Through individual company actions and partnerships with government and NGOs, Canadian mining helps provide education, skills training, and jobs as well as opportunities for local businesses. We apply and share environmental expertise and help build up local social programs.

Active in more than 100 countries, our members embrace their responsibility to ensure benefits for local populations and to protect the natural environment wherever they operate.
