

## **YES.** THIS WAS ONCE PART OF A MINE.

This beautiful sunset shot was taken at Wapisiw lookout, a former tailings pond. Canada's mining companies are required by law to reclaim all lands disturbed by mining. Reclamation involves removing hazardous materials, reshaping the land, restoring topsoil, and planting native grasses, trees, or ground cover. While we end up here, along the way mining generates billions in tax revenues, creates thousands of jobs, and helps to build vibrant communities.
