The Private Aggregate Quarry Program

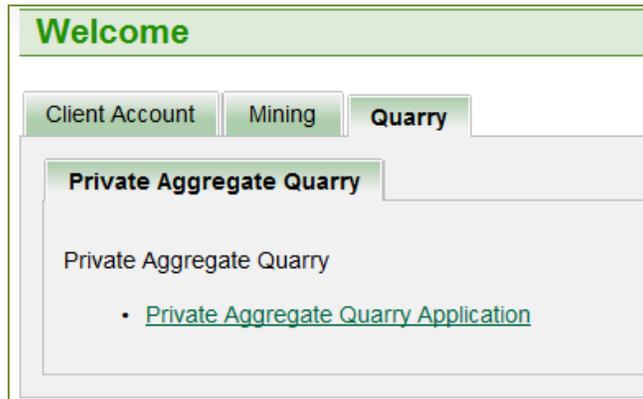

In 1992, the Mines and Minerals Act was given Royal Assent and certain provisions made the Province responsible for the rehabilitation of all aggregate quarries in the province. In order to rehabilitate these quarries a rehabilitation levy was put on every tonne of material produced from all Crown or privately owned aggregate quarries. The money collected goes into a special fund, administered by the Mines Branch and is used to rehabilitate aggregate quarries where the minable quarry material has been exhausted. The following sections discuss the steps needed to provide clients with the required registration certificate and the subsequent remittance of the rehabilitation levy.

How to Submit a Private Aggregate Application Online

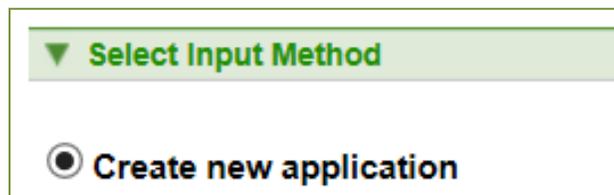

Step 1: Click [Launch iMaQs](#) to log in.

The screenshot shows the iMaQs website interface. At the top left is the 'iMaQs' logo, and at the top right is the 'Manitoba' logo with a bison icon. Below the logo is a navigation bar with 'Integrated Mining and Quarrying System' and a 'Printer Friendly' icon. The main content area features a large banner with the 'iMaQs' logo and the text 'Integrated Mining and Quarrying System'. To the left of the banner is a sidebar menu with options: 'iMaQs Home Page', 'Mines Branch (Regulatory)', 'GIS Map Gallery', 'Mining Search', 'Quarry Search', 'Assessment Search', 'Mining Map', and 'Quarry Map'. Below the menu is a note about Adobe Acrobat Reader. To the right of the banner is a 'Mines Branch Contact' section with an email link and phone number. Below that are sections for 'iMaQs Help Tips', 'Latest News', and 'About This Service'. At the bottom of the main content area are three buttons: 'Launch iMaQs', 'Mining Maps iMaQs', and 'Quarry Maps iMaQs'.

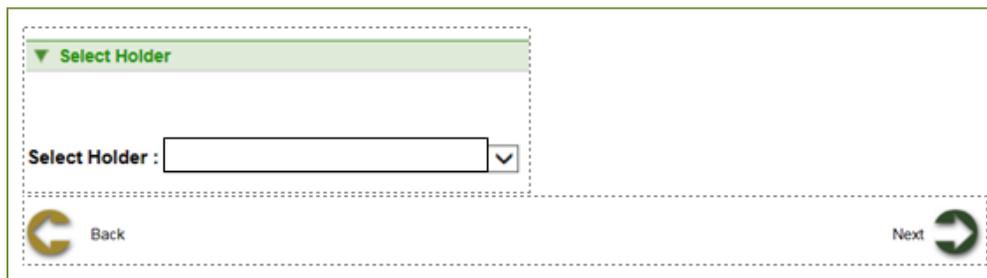

Step 2: To enter an application, go to **Quarry > Private Aggregate Quarry > Private Aggregate Quarry Application**

Step 3: Click Create New Application. Click **Next**.

Step 4: Select Holder from the drop-down. Click **Next**.

Step 5: Enter the Legal Description. Note: If the pit is in unsurveyed territory, enter the coordinates in the **Further Description/Comment** box. Click **Next**.
