COVID-19 Protocol Plan for Manitoba Geological Survey Midland Sample and Core Library 10 Midland Street, Winnipeg, Manitoba

10 Midland Street

AREA	OPTIONS	COMMENTS
Front entrance	All clients must do COVID-19 selfassessment prior to arriving for core viewing. Clients must pass the assessment before being allowed in the building. For multi-day visiting clients, the assessment must be made daily prior to arrival at the facility. Require clients to use hand sanitizer immediately upon entry. Have a post-use hand and surface sanitization requirement. Add signage on processes and expectations of clients.	Requires sanitizing station. Requires cleaner for use.
Thin section room	Mark distancing requirement (as a visual reminder). Have a post-use surface sanitization requirement. Reduce capacity to 4	Requires cleaner for use.

Viewing area	Mark distancing requirement (as a visual reminder). Core will be quarantined in the viewing area for 24 hours after viewing. Pinnacle services will not be used. Clients will use a single designated desk for their work. Only 4 tables will be available to use at a given time to accommodate for their quarantining.	Requires cleaner for use.
Rock cutting room	Post-use sanitization requirement on hard surfaces. Reduce capacity to 4	Requires cleaner for use.
Washrooms	Have regular sanitization of touch points (door knobs, handles) throughout the day.	Requires cleaner for use.
Kitchen area	Sink/fridge areas - limit number of users to one person at a time Requires regular sanitization throughout the day. Fridge and microwave handles to be opened with napkin only.	Requires cleaner for regular cleaning.
Unoccupied work spaces	Mark as "do not use". If used, have post-use sanitization requirements.	
Work space adjustments to accommodate social distancing practices	Mark distancing requirement at workspace entry (as a visual reminder). Regular sanitization of touch points throughout the day.	Requires cleaner for use.
