

Manitoba's Designated Oil Fields & Pools

2012

A faded, out-of-focus photograph of an oilfield facility. It shows several large, rectangular industrial buildings, some with ladders or walkways, and a tall red cylindrical storage tank. A yellow flame boom is visible against a bright sky. The foreground is a field of dry, brown grass.

FOREWORD

This annual report was compiled by P. Fulton-Regula, M.Sc., P.Geo. for the Director of the Petroleum Branch in accordance with section 11(4) of The Oil & Gas Act. This order does not include previously designated fields and pools that have been amalgamated or reassigned.

This report details the boundaries of the known oil fields and pools in Manitoba on January 1st 2011. It states the names and numerical codes used in the Manitoba Oil and Gas Information System to track the area and stratigraphic interval producing oil. Further information pertaining to the history of field or pool designations may be obtained by contacting the Petroleum Branch.

The Petroleum Branch is committed to providing quality service to all its clients. If you have any comments or suggestions related to the content quality or relevance of information received from the Branch, or service provided by Branch staff, please contact:

MANITOBA'S DESIGNATED FIELDS

Effective **January 1, 2012**, the following Fields are designated under clause 11(4)(b) of The Oil and Gas Act.

The area encompassed by each Field is outlined on the reference plats listed on pages 9 to 18. All Fields and Pools are drawn on the Dominion Land Survey System Grid, a description of which can be found on page 67.

Keith Lowdon, Director

MANITOBA'S DESIGNATED POOLS

Effective **January 1, 2012** the following Pools are designated under clause 11(4)(a) of the Oil and Gas Act.

The area encompassed by each Pool and stratigraphic interval is described herein, or outlined on the reference plats listed on pages 30 to 71.

A handwritten signature in black ink that reads "Keith Lowdon". The signature is fluid and cursive, with "Keith" on top and "Lowdon" below it.

APPENDIX A

Grid and scale

The grid used in all the field and pool maps within this report are in the Dominion Land Survey System (DLS) for western Canada and north is always to the top of the map. The Prairie Provinces are divided north and south into 5 areas separated by meridians, the first or Principal meridian is in Manitoba and it is denoted by W1 or WPM in all Unique Well Identifiers (UWI). The area between meridians is divided into ranges (R) each 6 miles wide, these ranges are cross-divided by township lines which run east-west six miles apart, to form townships (T) six miles square. See Figure 1.

Each Township is divided into Sections (Sec) one mile square (640 acres per section) and there are 36 sections in a Township, 6 sections wide by 6 sections high. Each Section is numbered as shown in Figure 55:

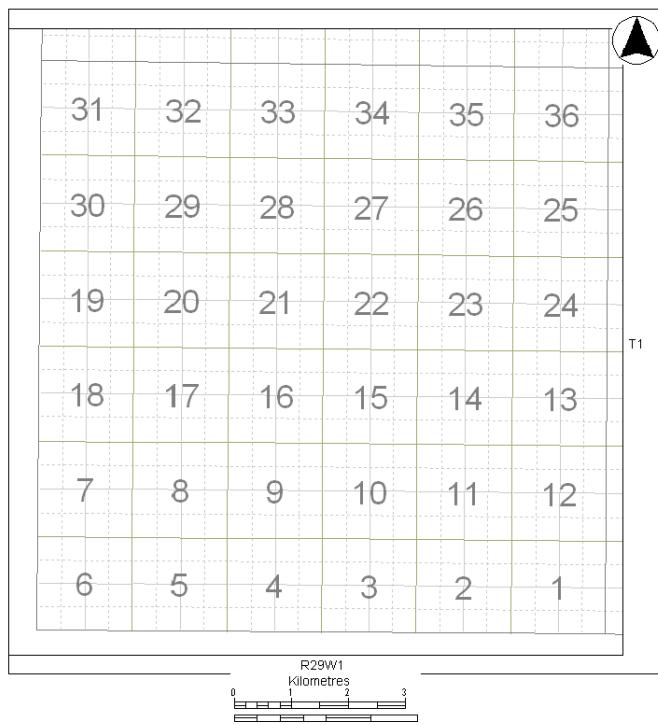

Figure 56
Sections in a Township.

Each Section is divided into 16 legal subdivisions (Lsd), 4 Lsd's wide by 4 Lsd's high, each 402.36m square or 40 acres. Pool boundaries are adjusted by Lsd. Each Lsd is numbered as shown in section 1 of Figure 56. Each section can also be split into $\frac{1}{4}$ sections as shown in Figure 57, this is important to note as field boundaries are adjusted by $\frac{1}{4}$ section. Each $\frac{1}{4}$ section consists of 4 Lsd's and a $\frac{1}{4}$ section is 804.72m square or 160 acres. A map reference is given in the format of a legal survey system reference, Lsd-Sec-Township-Range W1, i.e. 02-09-010-29W1. This is incorporated into the Unique Well Identifier (UWI) a code used to identify each oil well in Manitoba. A UWI is coded as: Survey system code Location Exception code/legal survey system/event sequence code i.e. 100/16-09-010-09W1/00. The DLS system is always represented by a designated code of 01.

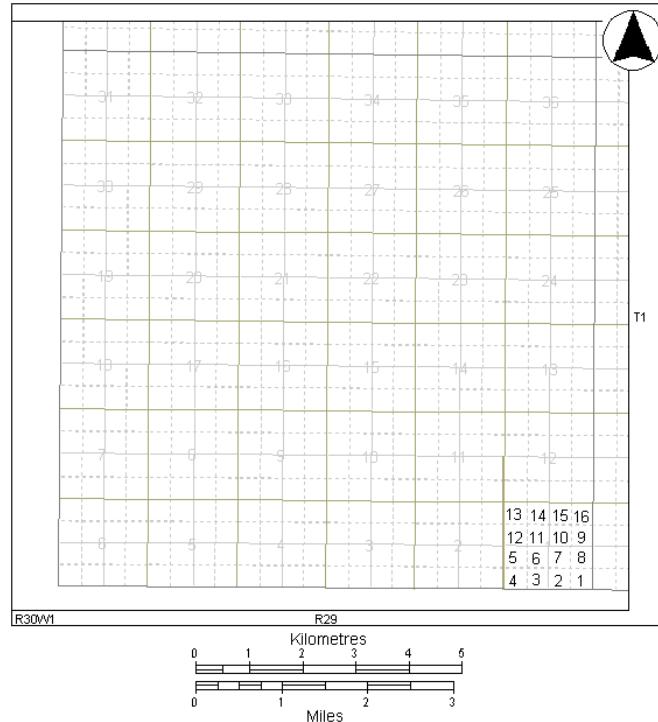

Figure 57
Legal subdivisions in a section.
