

Hendy's Production and Management Ltd.

Box 255 Virden Manitoba

December 7th 1972.

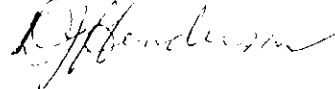

Department of Mines & Natural Resources

Virden Manitoba

On December the 7th 1972 I traveled to 9-35-9-29 location and arrived at 8.30 A.M. On arrival i found that the treater & knockout were on fire and had been on fire for some time .The treater and knockout houses were completely burnt . I put the fire out with my two 20 lb fire extinguishers of dry chemical, and closed all valves on lines leading to treater& knockout. I have know idea what may have caused the fire. The possibility of a gas line freezing off is possible due to the temperature being well below 20° below zero but this is not known for sure. Estimated damage will be approximately \$ 2800.00 The treater & knockout will not have to be replaced but all valves and fittings will . The company hassome fire insurance coverage on this battery.

Sincerely yours

D. J. Henderson

WINNIPEG 1, Manitoba

Dear Mr. Gobert:

Re: North Ebor Area
Twp.9, Rge.29, WPM
Province of Manitoba
Interim 80 acre spacing

Further to your letter of March 22nd, wherein you advised that temporary or interim 80 acre spacing cannot be put into effect without the Oil and Natural Gas Conservation Board having considered the application after a Public Hearing, we wish to advise that, at this time, we do not have sufficient data available to apply for a Public Hearing.

We will give this matter further consideration after we have acquired more production history and pressure data from the wells in question.

Yours very truly,

PARADISE PETROLEUMS LTD.

A. H. Jukes

Re: North Ebor Area

Dear Sir:

Reference is made to your letter of March 3, 1965, addressed to Mr. Stuart Anderson.

An application for a variation in spacing should be made to Mr. J. G. Cowan, Q.C., Chairman, Oil and Natural Gas Conservation Board. His address is Room 327, Legislative Bldg., Winnipeg 1.

On receipt of such an application, the Board would set a date for a Public Hearing. The notice of hearing would be advertised for three weeks and then representations with respect to the application considered at the public hearing.

Logically, field boundaries and allowables would be considered at the same hearing. However, lack of production history and technical data such as core analyses would suggest that this might be premature at this time.

Yours very truly,

M. J. Gobert,
Asst. Deputy Minister.

cc: J. G. Cowan, Q.C.

J. S. Richards ✓

VIRIDEN, MANITOBA

March 3, 1965

Mr. Stuart Anderson
Deputy Minister of Mines and Natural Resources
Department of Mines and Natural Resources
Norquay Building
401 York Avenue
WINNIPEG 1, Manitoba

Dear Mr. Anderson:

Re: North Ebor Area
Twp. 9, Rge. 29, WPM
Province of Manitoba

Further to our recent telephone conversation with respect to the above captioned area this will confirm that Paradise Petroleums Ltd. has recently drilled and completed five wells in Township 9, Range 29, WPM.

The locations and present status of these wells as at today's date are as follows:

1. Paradise-North Ebor 9-35
Lsd. 9 of Sec. 35, 9-29-WPM

On production. Currently producing 44 bbls. oil/day.

2. Paradise-North Ebor 11-36
Lsd. 11 of Sec. 36, 9-29-WPM

Currently recovering load oil.

3. Paradise-North Ebor 13-36
Lsd. 13 of Sec. 36, 9-29-WPM

Running pump and rods.

PARADISE PETROLEUMS LTD.

Mr. Stuart Anderson
Deputy Minister of Mines and Natural Resources

March 3, 1965

- 2 -

4. Paradise-Ebor 7-35
Lsd. 7 of Sec. 35, 9-29-WPM

Recovering load oil.

5. Paradise-Ebor 1-35
Lsd. 1 of Sec. 35, 9-29-WPM

Waiting on completion. Plan to perforate March 4.

As can be seen from the foregoing we have a minimum of production data at this time and it is not possible to evaluate the potential of these wells until a reasonable period of time has elapsed. However, from the data available, and more specifically core analyses and electrical logs, we estimate the oil recoverable from a 40 acre spacing unit to be approximately 30,000 barrels. Inasmuch as the cost of the initial well was approximately \$37,500.00 these wells could prove to be uneconomical based on 40 acre spacing. It is hoped that the cost of additional wells in the area can be brought down to approximately \$30,000.00, but even at this figure the margin of profit is very small and would not warrant the drilling of additional wells in the area.

The producing formation in question is extremely tight and requires sand fracturing which is one of the reasons that the well costs are higher than would normally be expected.

It is our intention to continue our drilling program in the immediate area and we have recently acquired additional Crown acreage at the Crown Oil and Natural Gas rights sale held on March 2, 1965. However, we do not intend to carry out any further drilling in the area until such time as we have production history and the wells have been on production from 60 to 90 days.

- 3

PARADISE PETROLEUMS LTD.

Mr. Stuart Anderson
Deputy Minister of Mines and Natural Resources

March 3, 1965

- 3 -

We therefore request that interim 80 acre spacing be put into effect with respect to Sections 25, 26, 35 and 36, all in Township 9, Range 29, WPM, and Sections 1 and 2 in Township 10, Range 29, WPM. This interim 80 acre spacing would only be in effect for a period of 90 days from March 1, 1965, and would be reviewed at the end of this period based on production and pressure data obtained from the wells in Section 35 and 36, 9-29-WPM.

Yours very truly,

PARADISE PETROLEUMS LTD.

Board Orders

No. PM 3-R,
and
No. PM 6A.

Enclosed, herewith, the above Board Orders for your signature. As you are aware, these Orders require the approval of the Minister of Mines and Natural Resources.

Board Order No. PM 6 granted Bralorne Petroleum Ltd. permission to inject water into Bralorne North Ebor 9-35-9-29 for a period of 180 consecutive days. Board Order No. PM 6A extends this permission for 240 consecutive days after April 1, 1967.

Board Order No. PM 3 granted permission to Sun Oil Company to inject water into certain wells in the Ebor Unit, which comprises part of the Ebor Field. The company has submitted evidence that this pilot flood failed to increase production, and the Working Interest Owners have agreed the project be abandoned. Board Order No. PM 3-R rescinds Order No. PM 3, and relieves the company of its obligation to continue pressure maintenance.

J. S. Richards.
