Dear Tristan,

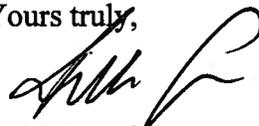

RE: East Manson Unit No. 1 Project Approval

The Petroleum Branch is pleased to grant approval of East Manson Unit No. 1 covering the whole section of 29-13-28WPM in the Manson field. The effective date for East Manson Unit No. 1 will be May 01, 2013.

The execution pages of the Unit Agreement are signed and attached.

Fort Calgary is reminded that there is no approval yet to start water injection and separate conversion applications are required for any existing horizontals to be converted into injectors within this new Unit. Please inform the Branch 1(one) month in advance of when Fort Calgary wants to start injection so a Waterflood Order can be created and TTEF calculated, etc.

If you have any questions in respect of the applications required please contact Leo Leonen at (204) 945-6570.

Yours truly,

Keith Lowdon
Director
