

A Safe Workplace

A Workplace Safety and Health Manual for Your Community

Section: III-C	Rules Procedures, Practices and Guidelines	Page 1 of 1
Subject: G-6	Barricades	Approved By: Harvey Bostrom
		Effective: April 01, 2005
		Revised: April 1, 2011

PPE Required: Reflective safety vest, steel-toe boots, gloves, hard hat

Steps:

1. Load the truck with signs and barricades required for the job using the *Manual Lifting Safe Work Practice* (section III-F-SWP-1).
2. Block off the street with a closed sign in order to install the proper barricades.
3. Install barricades and signs to protect workers and the public from injury.
4. Barricades should be removed in reverse order. In some instances, a flag person may be required to assist access and egress from the construction zone.
5. The barricades are to be inspected daily by the barricade personnel.
6. If barricades are damaged, they are to be repaired or replaced immediately.
