

A Safe Workplace

A Workplace Safety and Health Manual for Your Community

Section: III-E	Rules Procedures, Practices and Guidelines	Page 1 of 1
Subject: VLE-3	Greasing a Vehicle	Approved By: Harvey Bostrom
		Effective: April 01, 2005
		Revised: April 1, 2011

PPE Required: Steel-toe boots, safety glasses, coveralls, hard hat, gloves

Preparation:

1. Prepare work area.
2. Lock out vehicle as per *Lockout Procedure* (section III-C, G-11).
3. Set parking brake and block wheels.
4. Gather all necessary equipment and tools.
5. Ensure good lighting.

Steps:

1. Using a creeper and trouble light, go to each grease nipple and wipe clean with a rag.
2. Apply grease to each nipple until grease boot is full or a small amount of grease emerges from joint.
3. Replace any damaged nipples as required and check for worn joints.
4. Clean grease gun, light and creeper.
5. Remove lock out from vehicle.
