

LYNN LAKE AND AREA

Economic Profile

The Lynn Lake and Area Economic Profile contains demographic, job and business data from the following communities and unorganized territories within [Census Division No. 23](#):

- *Lynn Lake (Town)*
- *Marcel Colomb First Nation*

The data in this report and the analysis provide basic information about the economy of the area in order to inform the strategic economic development initiatives of regional stakeholders. This report, in and of itself, does not advocate for one course of action over another.

The data for population in this report comes from Manitoba Health's annual reports. The data for Education comes from the 2016 Statistics Canada Census. The data for Income comes from the 2016 Statistics Canada Census and the 2006 Statistics Canada Census.

The data for jobs and business comes from Emsi, which uses the following sources: Canadian Business Patterns (CBP); Survey of Employment, Payrolls and Hours (SEPH), Labour Force Survey (LFS) and CANSIM. This data is collected from businesses, according to where the jobs are located. Emsi data states the number of businesses and jobs in a community. Jobs data is reported according to the type of work that is done (i.e. occupation) and by the industry that the job is associated with. The data does not specify where the job holders live. Business data is reported according to the type of industry that it is in (ex. retail, construction, health care, etc.). The data does not provide any information on the quality of the businesses in the area.

1.0 POPULATION

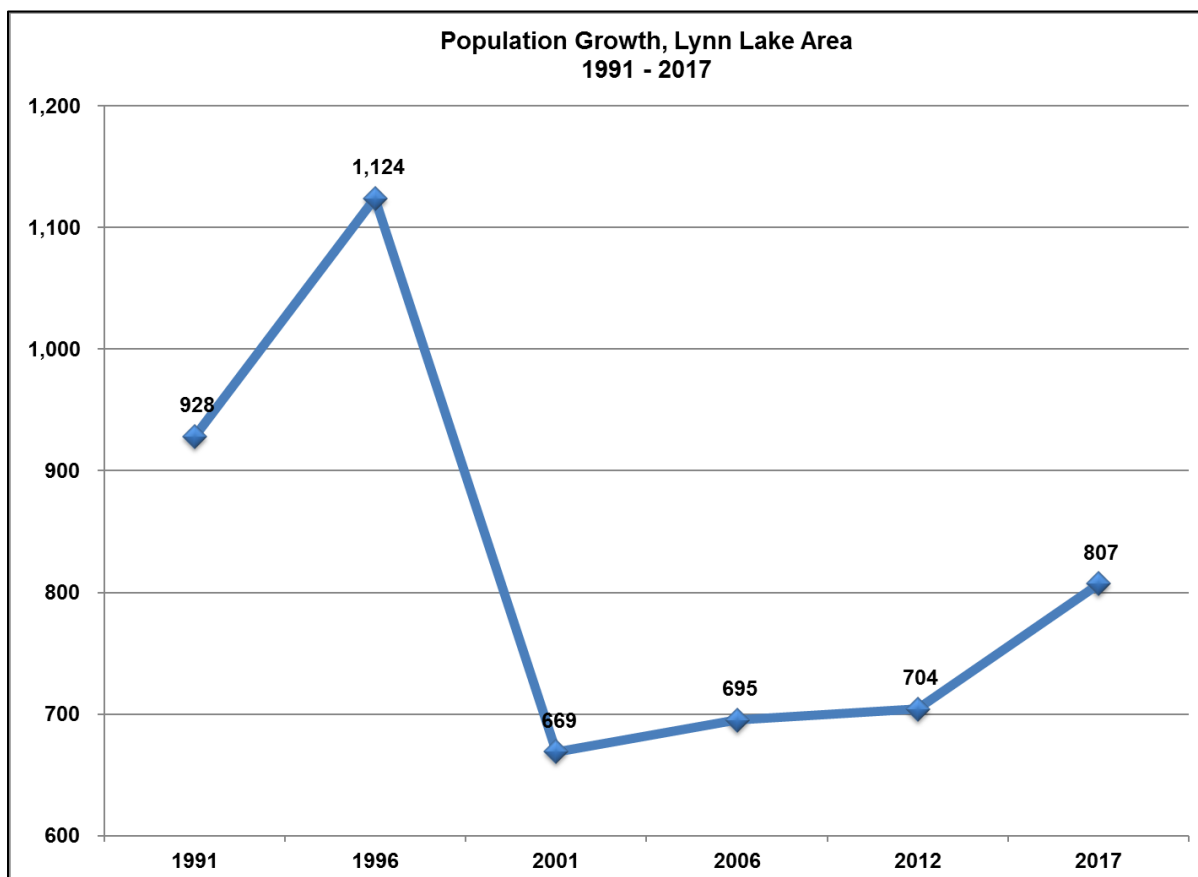

Population growth or decline over a period of time illustrates the historical trends of a region. It is often used to indicate the region’s ability to grow over time.

Figure 1 shows that:

- According to the Manitoba Health Population Report (June 2018), there were 807 people living in this area in 2017.
- The population of the area decreased by 121 (-13.0%) from 1991 to 2017.
- The population of the area increased by 103 (+14.8%) from 2012 to 2017.

For reference, in Manitoba, the overall population increase from 2012 to 2017 was 6.7%.

Figure 1: Population Growth 1991 - 2017

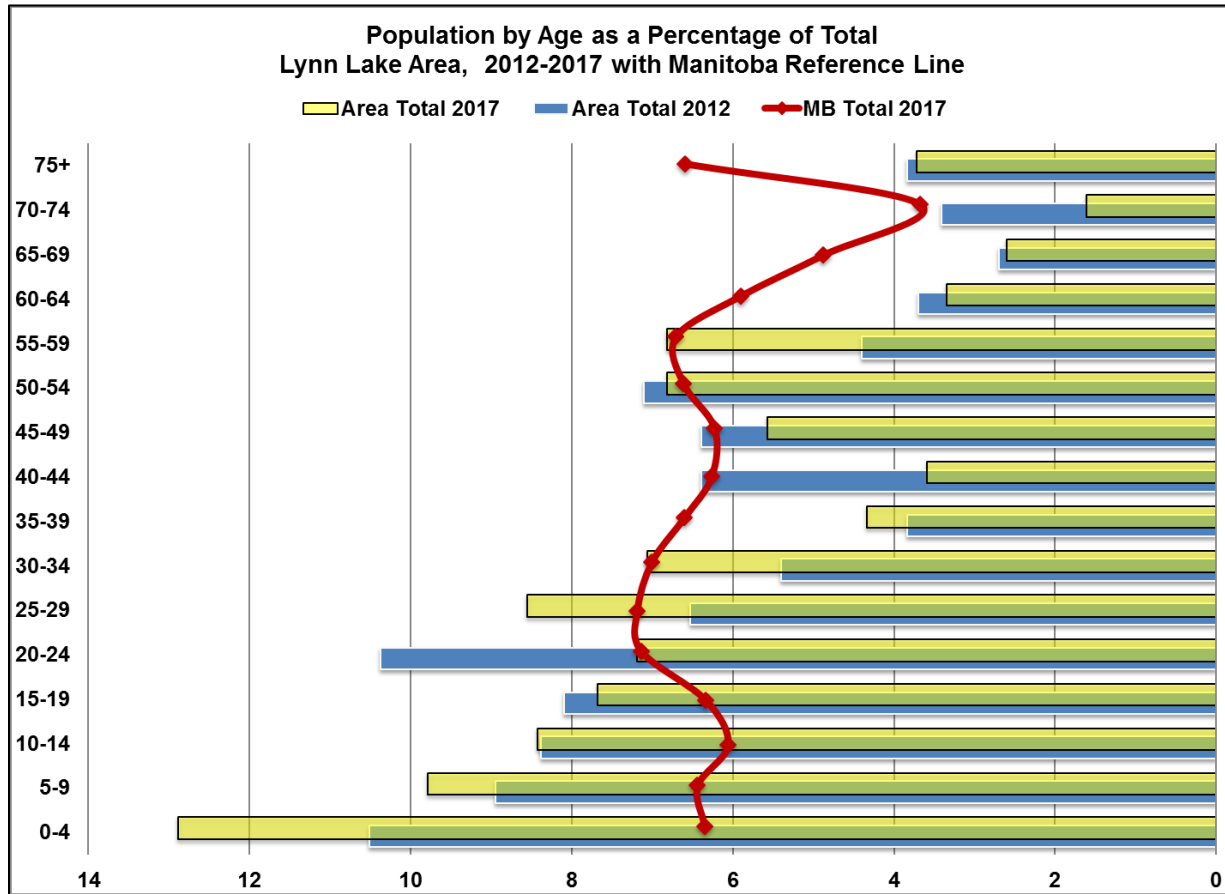

Data sources: Manitoba Health Population Reports: June 1, 2018; June 1, 2013, June 1, 2007; June 1, 2002; June 1, 1997; and June 1, 1992.

Figure 2 shows that the population by proportion in this area has increased in the 0 to 14, 25 to 39, and 55 to 59 age categories. The area has more people by proportion than the Manitoba average in the 0 to 34 age categories. The area has fewer people by proportion than the Manitoba average in the 35 to 49 and 60 to 75+ age categories.

Figure 2: Population Growth in Area by Age 2012 and 2017; in Manitoba 2017

Data sources: Manitoba Health Population Reports: June 1 2018; June 1, 2012

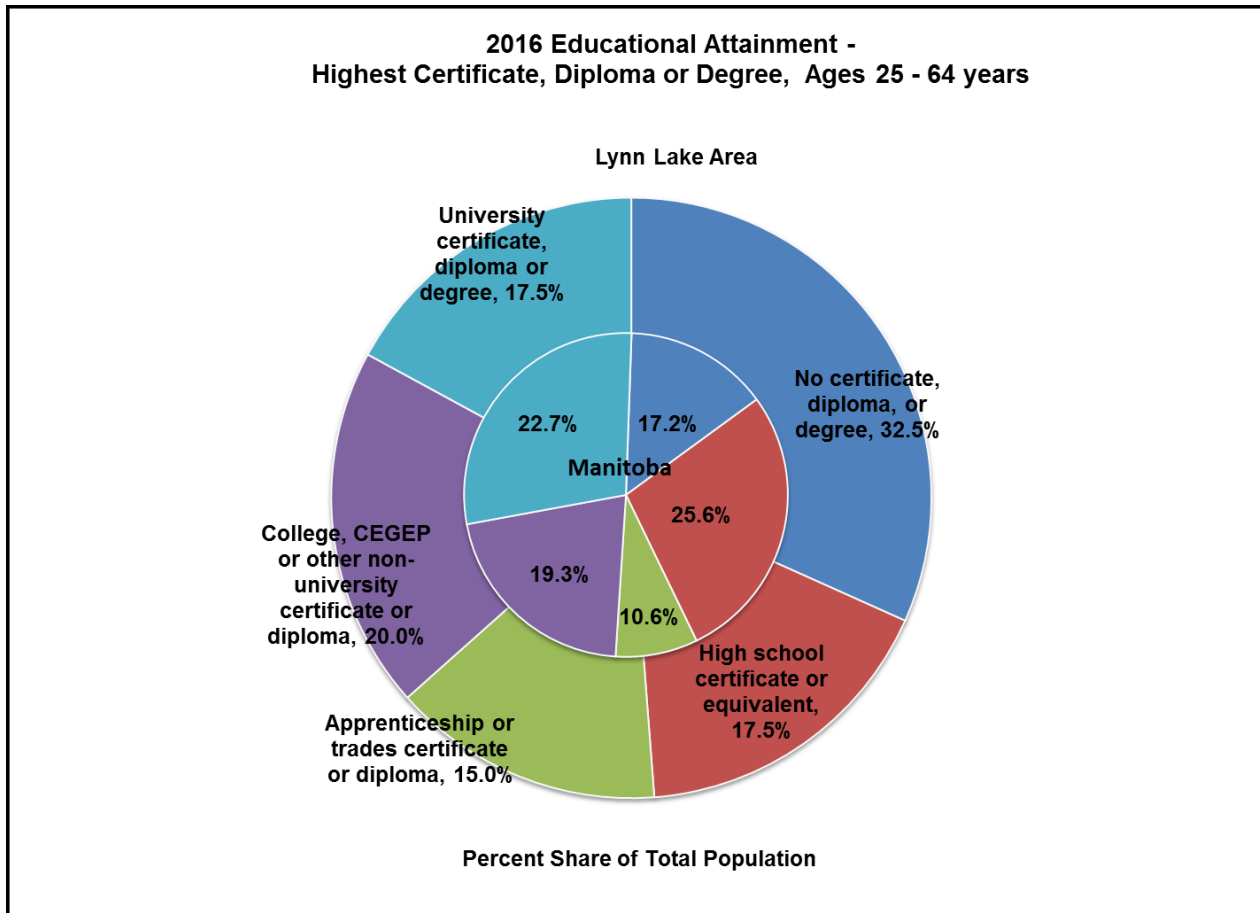

2.0 EDUCATION

The education level of an area is linked to the growth of the local economy. It also determines whether the labour force will be attractive to business and industry; and may predict innovation and entrepreneurial activities.

Figure 3 shows that this area has a higher proportion than Manitoba of people with **No certificate, diploma or degree** (32.5%); **Apprenticeship or trades certificate or diploma** (15.0%); and **College, CEGEP or other non university certificate or diploma** (20.0%).

This area has a lower proportion than Manitoba of people with **High school certificate or equivalent** (17.5%); and **University certificate, diploma or degree** (17.5%).

3.0 INCOME

Average income is the total income from all sources of all members of a household over 15 years of age. This is often used to assess the standard of living. Household income is often linked with educational attainment, so as education attainment rises, household income also rises.

Figure 4 shows that the percentage of households in two lowest income brackets has decreased and is more than the provincial average. The percentage of households in the three highest income brackets has increased and is lower than the provincial average.

Figure 4: Household income Lynn Lake Area Manitoba 2005 and 2015

Data source: Statistics Canada: 2006 Census; National Household Survey 2016
 Note: The data for 2010 is not available.

4.0 JOBS BY INDUSTRY SECTOR

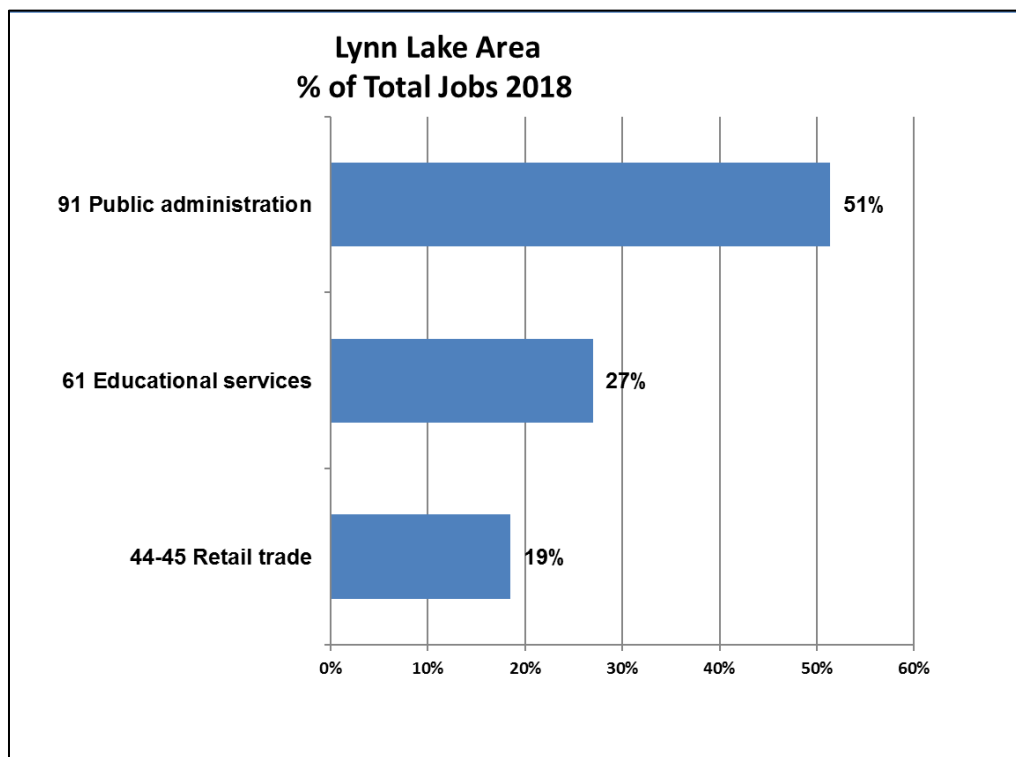

The strength and diversity of the labour force can be analyzed by dividing industries into three types:

- the **Primary** sector – industries that extract and produce raw materials; for example **Agriculture**.
- the **Secondary** sector – industries that change raw materials into goods; for example **Manufacturing**.
- the **Tertiary** sector – industries that provide goods and services to business and consumers; for example **Accounting, Retail**.

The **Primary** and **Secondary** sectors are referred to as the **Goods producing sectors**. The **Tertiary** sector is referred to as the **Service sector**. Industries and Jobs are classified by the North American Industry Classification System (NAICS).

In June, 2018 there were 239 jobs in the Lynn Lake area. (Emsi 2018.1)

Figure 5: Jobs by Industry Sector

Data source: Emsi 2018.1

Figure 5 shows that:

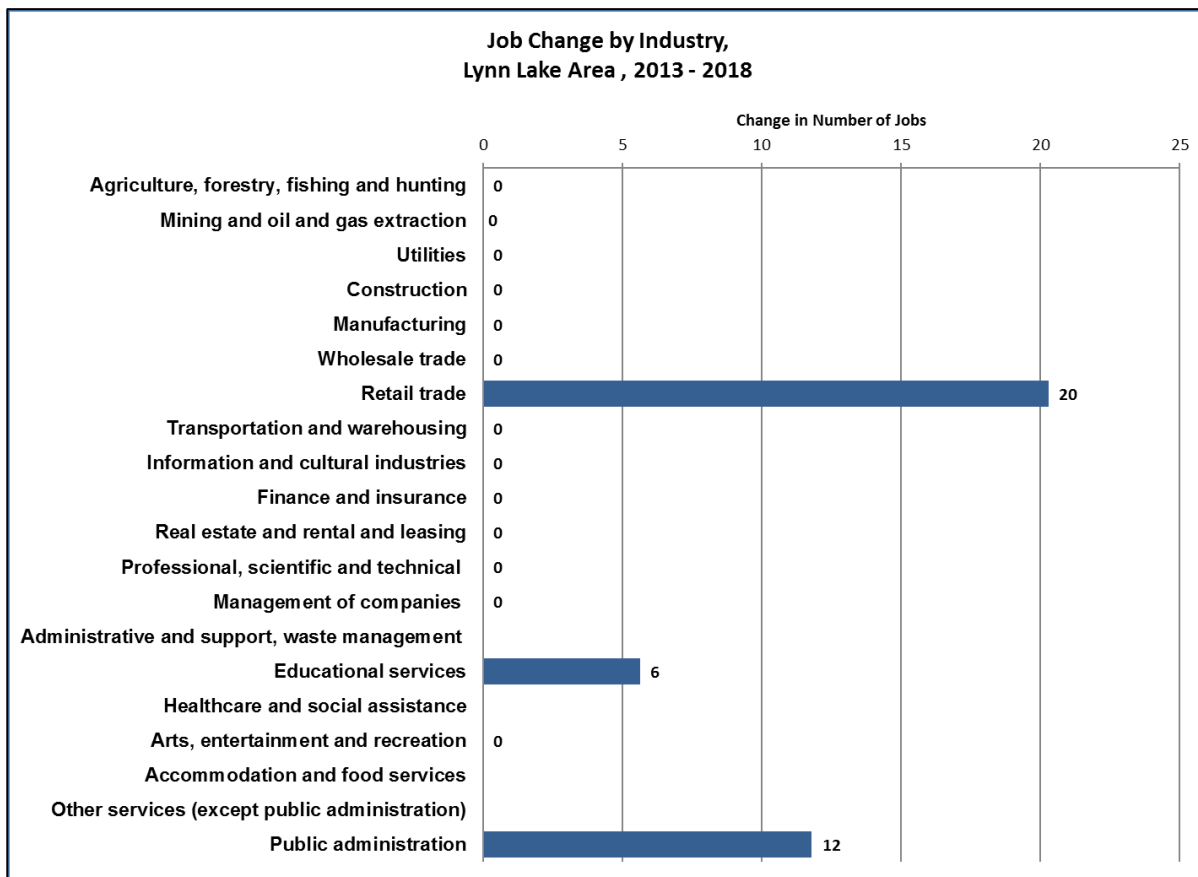

- 97% of the jobs are in the tertiary sector.
- 78% of the jobs are in sectors traditionally funded by government (**Education, Healthcare, and Public administration**).

5.0 JOB CHANGE BY INDUSTRY SECTOR

Changes in the number of jobs illustrate how the economy of an area is evolving.

Figure 6 shows that the greatest job change was in the **Retail trade** sector with a gain of 20 jobs between 2013 and June, 2018; followed by the Public **administration** sector with a gain of 12 jobs between 2013 and June, 2018.

Figure 6: Job Change by Industry Sector: 2013 and June, 2018

Data source: Emsi 2018.1

Figure 7 shows that:

- In June, 2018, there were 239 jobs in the area, an increase of 40 jobs (+20.1%) between 2013 and June, 2018. This compares to an increase of 4.0% for Manitoba.
- In the goods producing sectors, there were no jobs, either in 2013 or in June, 2018.
- For comparison, from 2013 to June, 2018, Manitoba gained 3% (3,553 jobs) in the goods producing sectors.
- In June, 2018, there were 232 jobs in the service sector, a gain of 38 jobs (+19.5%). This compares to an increase of 4% in Manitoba.

6.0 LABOUR BY OCCUPATION

Another way to identify characteristics of an area is to examine the makeup of occupations within the labour force.

Figure 8 shows that:

- The largest percentage of workers are in the **Occupations in social science, education, government service and religion** (34.0%), followed by **Sales and service occupations** (17.1%).
- In Manitoba, the largest percentage of workers are in the field of **Sales and service occupations** (23.5%), followed by **Business, finance and administration occupations** (15.4%).
- The region has a higher percentage than the average of Manitoba in **Natural and applied sciences and related occupation; Occupations in social science, education, government service and religion; and Trades, transport and equipment operators and related occupations.**

Figure 8: Labour by Occupation Lynn Lake Area and Manitoba, June, 2018

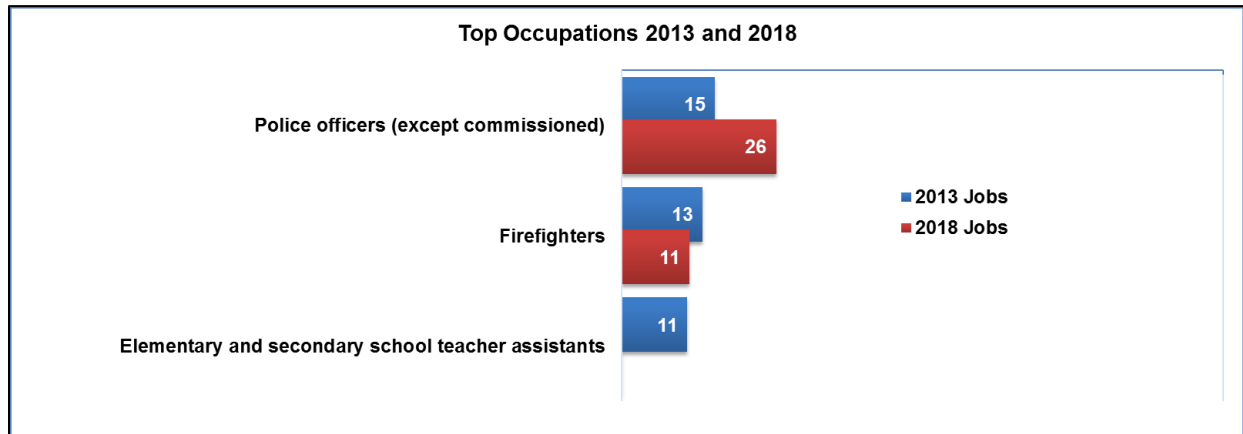

Data source: Emsi 2018.1

When looking at more specific occupations in the region, Figure 9 shows that:

- The most common occupation is **Police officers** with 26 people employed, followed by **Firefighters** with 11 people employed.
- Data for occupations with less than 10 individuals is suppressed by the data provider.

Figure 9: Top Jobs by Occupations in 2013 and June, 2018

Data source: Emsi 2018.1

7.0 BUSINESS BY INDUSTRY SECTOR

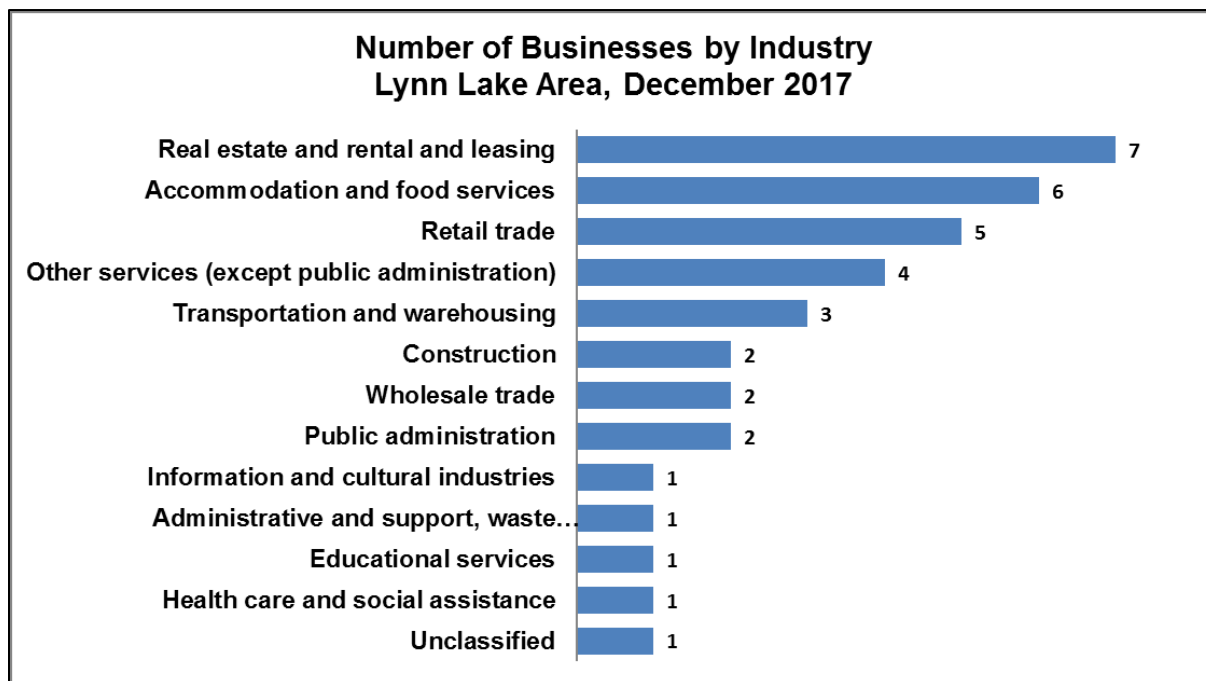

Another perspective in reviewing a regional economy is to determine the number of businesses in the region and the number of people they employ. It is important to note that some businesses are self-employed sole proprietors who do not have employees.

In 2017, there were 36 businesses in the area. (Emsi 2018.13)

Figure 10 shows that:

- Most businesses were in the tertiary sector of **Real estate and rental and leasing** with 7 businesses followed by the tertiary sector of **Accommodation and food services** with 6 businesses.

Figure 10: Number of Business by Industry, 2017

Data source: Emsi 2018.1 Note: This chart does not include all businesses.

Figure 11 shows that most businesses in the area are operated by self employed individuals. The next common are businesses that employ 1 to 4 individuals.

Figure 11: Business by Size of Employment, 2017

Number of employees	Number of businesses
Indeterminate (self-employed)	19
1-4.	6
5-9.	4
10-19.	3
20-49	3
50-99	1
100-199	0
200-499	0
500+	0
Total	36

Data source: Emsi 2018.1

8.0 SUMMARY

Community leaders can use the information in this report as a tool to identify opportunities during consultations, planning and implementation of a long term economic development plan.

ⁱ [Statistic Canada Census Subdivisions](#) in this report include*:

Code	Title	Community
4623047	Lynn Lake	Lynn Lake (Town)

*No data was available for Marcel Colomb First Nation (Black Sturgeon, code 4623800).
