

Workforce Development Program

The Workforce Development Program assists companies to implement Human Resources and workforce training and development plans.

The program provides funding to hire an external consultant and to develop and deliver internal training, particularly related to proprietary products and processes.

Innovation Growth Program

The Innovation Growth Program provides cost-sharing assistance to small and medium-sized businesses to assist them in developing and commercializing new innovative products and processes.

This program supports companies in the development and growth stages of the business life-cycle to reduce the risks associated with innovative product development, accelerate growth and strengthen their financial position so they can secure future funding to build their Manitoba-based business.
