PROPOSED GOVERNMENT MOTIONS:

Hon. Mr. DOER –

WHEREAS the Manitoba portion of the Hudson Bay Basin is essential to the social, economic and environmental well-being of our Province; and

WHEREAS the Manitoba portion of the Hudson Bay Basin provides potable water for 100,000 Manitobans, employment for 3500 Manitobans in the fishing industry– an industry that generates \$25 million for Manitoba and Canada each year-, a vibrant tourism industry, and a way of life for aboriginal communities; and

WHEREAS the Manitoba portion of the Hudson Bay Basin is critical to sustaining the eco-systems of our Province; and

WHEREAS the State of North Dakota has proposed the construction of an outlet that would divert water out of Devils Lake and into the Sheyenne River and subsequently into the Red River; and

WHEREAS the Province of Manitoba has raised serious concerns about the potential effects of the Devils Lake outlet proposal on water quality in Manitoba including high salt content, possible biota transfer, and possible fish pathogens that could enter the Manitoba portion of the Hudson Bay Basin; and

WHEREAS as recently as 1993, the State of North Dakota was advocating for the construction of an inlet into Devils Lake from the Missouri River Basin and as recently as 1997, the Governor of North Dakota re-iterated his support for an inlet; and

WHEREAS the combination of an inlet and an outlet at Devils Lake would constitute a new version of the Garrison diversion project and would have potentially devastating effects on the Manitoba portion of the Hudson Bay basin.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba oppose the unilateral diversion of water into the Red River by the State of North Dakota either through the Devils Lake outlet proposal or through a reformulated Garrison Diversion proposal; and

BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba call on the governments of the United States and Canada to ensure that there is a complete and comprehensive environmental impact statement on the Devils Lake outlet proposal that includes potential impacts on Canadian waters; and

BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba support the Provincial government in calling for the public release of all studies done to date on the potential impacts of the Devils Lake outlet.

Hon. Ms. WOWCHUK –

WHEREAS excess rainfall in the fall of 1998 and spring of 1999 resulted in over one million acres of land going unseeded, primarily in the southwest, but also in other areas of the province; and

WHEREAS the federal government has recognized the disaster situation and is compensating people for mould and other property damage under the Disaster Financial Assistance Arrangements (DFAA); and

WHEREAS farmers lost chemical and fertilizer inputs and incurred extra costs to restore their land and for weed control, at the same time as they had no 1999 crop to sell; and

WHEREAS the Manitoba Government has repeatedly requested support from the federal government, which has the lead responsibility for disaster financing, for farmers who sustained damage to their land; and

WHEREAS the Manitoba Government pursued support for compensation under Section 25 of the DFAA, which specifies loss of applied fertilizer and land restoration and was turned down by the federal government; and

WHEREAS the Manitoba Government requested a Canada/Manitoba agreement for the provision of assistance similar to the levels provided in the 1996 Saguenay River Flood, the 1997 Red River Valley Flood and the 1998 Eastern Canada Ice storm, and the federal government has refused; and

WHEREAS there has been all-party cooperation on lobbying the federal government for assistance for Manitoba farmers.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the federal government to reconsider its position on funding for the 1999 flooding which occurred throughout the province, but specifically in the southwest, and include loss of applied fertilizer and land restoration as eligible costs under the DFAA; and

BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba urge the federal government to consider programs and assistance similar to that provided for disasters such as the 1996 Saguenay River Flood, the 1997 Red River Valley Flood and the 1998 Eastern Canada ice storm.

NOTICE OF COMMITTEE MEETING:

The Standing Committee on LAW AMENDMENTS will meet in Room 255, Legislative Building, Winnipeg, Manitoba on Monday, May 1, 2000 at 10:00 a.m. to consider Bills referred.
