(Ms. MARCELINO (Logan) – unlimited)

DEBATE ON GOVERNMENT RESOLUTION:

On the Proposed Motion of Hon. Mr. GOERTZEN – Long Term, Sustainable and Flexible Healthcare Funding

WHEREAS health care is the single largest budget item for provinces and territories, each of whom is responsible for the delivery of quality health services for Canadians; and

WHEREAS provinces pay more than 75 per cent of health care costs and the Federal Government continues to reduce growth in health care funding; and

WHEREAS the Federal Government’s unilateral approach and refusal to engage in a discussion around the importance of a long term and sustainable partnership on health care funding should be of concern to every Manitoban; and

WHEREAS Manitoba is facing a challenging fiscal situation and the Federal Government’s decision to reduce health care funding by more than \$1 billion over the next 10 years is going to put additional strain on the ability to provide services to Manitobans; and

WHEREAS federal funding is essential in order to address the increasing costs associated with the health care needs of the province’s growing and aging population.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba be urged to reiterate the position of other governments representing 90 percent of Canada’s population, that is, before any further discussion takes place on a renewed Health Accord, the First Ministers request a meeting with the Prime Minister regarding the need for long term, sustainable and flexible funding for the healthcare system and that if this is not accomplished, any proposed reduction in healthcare funding be delayed until 2018/19.

(Mr. MARCELINO (Tyndall Park) – 17 mins)

NOTICE PAPER

NOTICE OF MOTION FOR TUESDAY:

PROPOSED RESOLUTION:

Mr. CURRY – Promotion of E-waste Disposal / Recycling

12. WHEREAS the production of portable electronic devices has increased exponentially in recent years due to the proliferation of the information economy and technological services; and

WHEREAS many electronic devices contain heavy metals such as cadmium, mercury, and lead in their composition which pose environmental hazards requiring special environmental mitigation; and

WHEREAS many electronic devices contain rare earth elements such as gold and cesium which continue to be valuable after the life of the electronic device; and

WHEREAS industry stewardship across Canada is the preferred model to promote proper disposal of electronic waste on behalf of industry in accordance with provincial regulations; and

WHEREAS *The Waste Reduction and Prevention Act* requires industry to participate in a product stewardship program for end-of-life electronic equipment; and

WHEREAS according to Statistics Canada, industry-led education and disposal programs are responsible for a near tripling of electronic waste being diverted from Canadian landfills from 2008 to 2012, from 24,000 tonnes to 71,000 tonnes; and

WHEREAS since 2012, the Electronic Products Recycling Association (EPRA) administers electronic waste disposal in Manitoba; and

WHEREAS the Department of Sustainable Development recently coordinated a recycling blitz in cooperation with the Electronic Products Recycling Association and private sector partners at a Winnipeg apartment complex as part of October's Sustainability month; and

WHEREAS Manitoba has an end-of-life processor in the province who works in partnership with the Electronic Products Recycling Association; and

WHEREAS an industry commissioned poll in 2015 indicated that only 68% of Manitobans were aware of the EPRA recycling program and associated Manitoban drop-off locations; and

WHEREAS improper disposal of electronic waste has significant environmental consequences and measures to increase the amount of electronic waste diverted from landfill should be considered and encouraged.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to encourage Manitobans to use EPRA designated depots to dispose of their electronic waste and encourage municipalities to divert electronic waste from local landfills.
