RESOLUTION:

Mr. ALTEMEYER – Protect Manitoba Waterways from Transboundary Water Projects

13. WHEREAS the health of waterways in the province is a concern for all Manitobans; and

WHEREAS transboundary water diversion projects pose a serious risk to Manitoba's waterways due to the inter-basin transfer of foreign invasive species, nutrients, and diseases into the Hudson Bay drainage basin; and

WHEREAS the Government of North Dakota is actively pursuing two different large-scale water diversion projects – the Northwest Area Water Supply (NAWS) project and the Red River Valley Water Supply (RRVWS) project - that would bring water from the Missouri River into Manitoba; and

WHEREAS waters from Manitoba's Hudson Bay drainage basin and the Missouri River have not been mixed for thousands of years; and

WHEREAS the most recent environmental assessment done on the RRVWS project is ten years old, but identified over two dozen foreign invasive species that live in the Missouri River; and

WHEREAS these inter-basin threats could cause severe and irreversible damage to Manitoba's ecosystems, water quality, and to commercial and sport fisheries; and

WHEREAS the Federal Government and previous Provincial Governments have long opposed and successfully delayed both the NAWS and RRVWS projects; and

WHEREAS North Dakota officials are currently completing design work and early construction, with a goal of active construction on the RRVWS project in 2019; and

WHEREAS the Provincial Government has to date failed to take action or address concerns over the RRVWS project; and

WHEREAS the *Boundary Waters Treaty of 1909* between the United States and Canada provides the International Joint Commission the authority to examine transboundary water projects.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to protect Manitoba waterways by immediately requesting the Federal Government to initiate a formal referral of the Red River Valley Water Supply project to the International Joint Commission.
