# NOTICE PAPER

## NOTICE OF MOTION FOR THE NEXT TUESDAY OF PRIVATE MEMBERS' BUSINESS:

### PROPOSED RESOLUTION:

#### **Mr. LAMONT – Calling on the Legislative Assembly to Urge the Federal Government to ensure Health Funding Equity for Manitoba**

23. WHEREAS on July 12, 2022, when Premiers across Canada called for a unanimous increase in the funding for the Canadian Health Transfer (CHT), they made no mention of restoring equity to the federal health care formula; and

WHEREAS building a stronger, fairer and more responsive national public health system starts with the basic principle that funds must go where they are needed the most; and

WHEREAS in 2014, nine of ten provinces were faced with nearly \$1 billion in health care transfer cuts, meaning Progressive Conservative MPs across Canada voted in 2007 to make permanent health funding cuts to their own provinces; and

WHEREAS because Manitoba has a widely dispersed rural and northern population, as well as the deepest family poverty in Canada, this decision has had a direct negative impact on the province's ability to deliver health services; and

WHEREAS prior to 2014, the formula to calculate federal health transfers to provinces was calculated based on equity being the real life additional costs to provinces of age, health, and poverty of the population, remoteness and travel distances; and

WHEREAS for six fiscal years, the Federal Progressive Conservatives capped federal transfers to Manitoba, and shifted the burden of costs and austerity onto provinces after the financial crisis of 2008; and

WHEREAS total federal funding for health care across Canada has been increased, and returning the CHT formula to an equity basis would result in significant increases to health care funding to nine out of ten provinces in Canada, including Manitoba, even before an overall increase in funding; and

WHEREAS Provincial Governments have continued to freeze and cut health care even as they plead poverty, they have had no difficulty finding hundreds of millions or billions to cut cheques to corporations, even as they have seen major increases in total federal funding in the form of increased equalization, health accords and more; and

WHEREAS equitable health funding ensures a more fair and efficient model, that money flows to the people who need it, and takes into consideration extra costs like distance and health; and

WHEREAS healthcare and transfer payments need to be recognized as essential investments into Canada's and Manitoba's prosperity and the stability of the country as a whole.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Federal Government to restore the Canada Health Transfer's formula to one based on equity, and that future health agreements ensure that funds intended for the provision of health care are used for the provision of public health care, and not diverted to another purpose.
