

POPULATION ESTIMATES BY CENSUS SUBDIVISION AND AGE GROUP

Interlake - July 2025

For statistical purposes, Manitoba's municipalities are grouped into eight Economic Regions (ER). Smaller than an Economic Region, Census Divisions are also formed by aggregating municipalities. Reference maps are provided on pages 9 and 10. The table below shows the association between Manitoba's Economic Regions and its Census Divisions.

The maps on pages 2 to 8 show selected demographic characteristics by Census Subdivision (CSD) within the Interlake Economic Region.

The following CSD type abbreviations are used:

CY = City; IRI = Indian reserve; MU = Municipality; NO = Unorganized; RM = Rural municipality; T = Town; VL = Village

Geography	Percent Share of Total (%)					Total	Percent Change (%) Year-over-Year	Median Age (Years)
	14 and Under	15 to 64	65 and Over	12 and Over	18 and Over			
Manitoba	17.7	65.1	17.2	86.1	78.6	1,509,702	1.2	37.6
Southeast	20.6	62.1	17.4	83.8	75.3	437,889	2.2	37.8
Division 01	12.8	54.4	32.8	89.9	84.5	20,882	1.4	55.4
Division 02	22.9	63.7	13.4	81.8	72.5	98,091	2.7	34.0
Division 12	17.9	62.0	20.1	86.2	78.3	26,990	1.1	42.5
South Central	23.0	60.7	16.2	81.8	72.4	151,756	1.5	35.0
Division 03	23.4	61.4	15.2	81.6	72.0	65,437	1.7	34.4
Division 04	20.7	56.7	22.5	83.2	74.8	10,441	0.1	40.0
Southwest	18.3	62.5	19.1	85.6	77.9	517,920	1.1	38.6
Division 05	18.3	54.8	26.9	85.6	78.1	13,733	0.4	45.3
Division 06	21.7	57.3	21.1	83.3	73.8	10,393	-0.1	39.2
Division 07	17.9	65.7	16.4	85.9	78.5	81,164	1.6	36.5
Division 15	18.5	58.3	23.2	85.6	77.4	24,190	0.4	42.7
North Central	21.2	61.3	17.5	83.2	74.4	169,167	1.3	37.2
Division 08	24.0	58.6	17.4	81.0	71.4	15,140	1.0	34.4

Notes to Readers

Population Estimate

Estimates are derived from Census counts, but are adjusted for net Census undercoverage, incompletely enumerated Indian reserves and demographic growth.

Median Age

The median age of the population is the age at which half the people are older, and half are younger.

Gender

Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman).

Demographic estimates are available for the gender category "Men+" (includes men and/or boys, as well as some non-binary persons), and for the gender category "Women+" (includes women and/or girls, as well as some non-binary persons). Prior to 2021, the demographic estimates are based on the concept of sex at birth. Although gender and sex at birth are two different concepts, this change does not cause a significant break in the trend because the two concepts produce very similar distributions.

Comparability over time

Estimates of population and demographic components may not be fully comparable over time due to seasonal effects, changes in methodologies and completeness of source data.

Data Subject to Revision

The initial release of demographic estimates should be considered preliminary. In subsequent annual releases, estimates are updated, or finalized, using the standard procedure followed by Statistics Canada for decades.

Small number warning

Population estimates for Census Subdivisions (CSDs) sometimes consist of small numbers, particularly if broken down by age and gender. Estimates with such a high degree of detail may show a level of uncertainty that is more important. Thus, estimates for smaller numbers should be interpreted with caution. In order to reduce this level of uncertainty, users are encouraged to create age groups meeting their needs and/or to group together more than one CSD.

Effective with the May 2024 release

Census Base

Postcensal estimates are based on the 2021 Census counts adjusted for census net undercoverage and for incompletely enumerated reserves and settlements.

Census Geography

This report contains population estimates for census subdivisions (CSDs) according to the Standard Geographical Classification (SGC) 2021.
