

QUARTERLY POPULATION STATISTICS REPORT

Manitoba Population Estimates: April 1, 2023

Statistics Canada has released its April 1, 2023 population estimates and first quarter 2023 demographic estimates for Canada, the provinces and territories.

According to Statistics Canada, Manitoba's total population was estimated at 1,444,190 residents as of April 1, 2023, up 12,398 individuals from the January 1, 2023 estimate. Population growth continues on a twelve-month basis, with Manitoba's increase since April 1, 2022 estimated at 42,223 people, or 3.01%. Although Manitoba's twelve-month immigration and other international levels are modern-day records, net interprovincial outflows not seen since 1979/80 hamper growth.

	April 1, 2023	January 1, 2023	April 1, 2022
Population	1,444,190	up 12,398	up 42,223
Net Migration	(January to March)	2023	2022
	International	8,606	4,932
	Other International*	5,688	-129
	Interprovincial	-2,687	-1,701
	Total	11,607	3,102

**Note: Other International is Net Non-permanent Residents, plus Returning Emigrants, less Net Temporary Emigrants.*

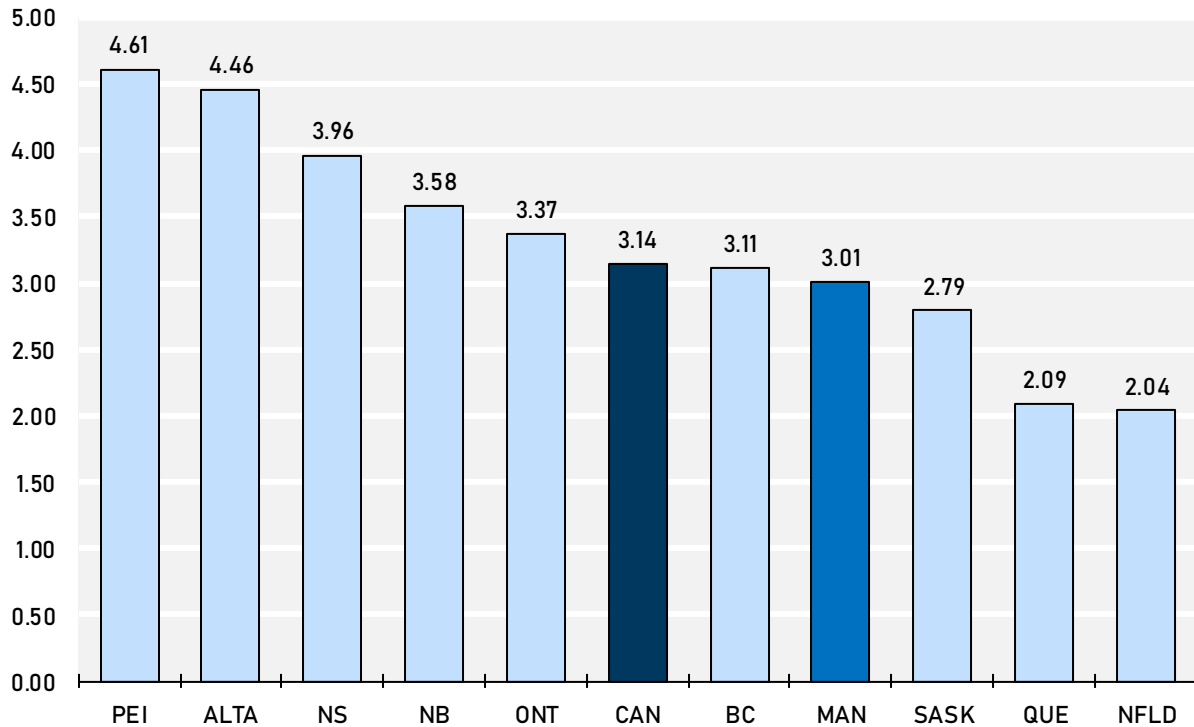

Net international migration for the first quarter of 2023 was 8,606 individuals, up from 4,932 people in the first quarter of 2022. Other international migration (that is, the net change in the number of Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad) was an estimated net gain of 5,688 migrants for the first quarter of 2023. This net gain is an improvement from the net loss of 129 other international migrants estimated for the first quarter of 2022.

Through interprovincial migration, Manitoba recorded an estimated net loss to other provinces and territories of 2,687 residents during the first quarter of 2023. This net loss is larger than the net loss of 1,701 individuals in the first quarter of 2022. During the first quarter of 2023, Manitoba's largest net gains were from Newfoundland (16), Northwest Territories (13) and Nunavut (7). The largest net losses were to Alberta (-1,262), British Columbia (-1,116) and Quebec (-153).

Generally, Manitoba's interprovincial migration losses are offset to some degree by other forms of migration. Combining the various forms of population movement, Manitoba recorded an overall net migration gain of 11,607 people in the first quarter of 2023. This net gain marked an increase of 8,505 individuals from the net gain of 3,102 migrants in the first quarter of 2022.

(1) Prior to the third quarter of 1996 "Other" included Net Non-permanent Residents and Returning Emigrants only. From the third quarter of 1996 to the present, "Other" includes Net Non-permanent Residents and Returning Emigrants less Net Temporary Emigrants (formerly called Temporary Abroad).

Note: Annual components of growth are for Jan. 1 to Dec. 31 of given year, population is for July 1 of given year.

Quarterly population figures are for the end of the period indicated.

NOTE: Annual rates are calculated by dividing the annual migration by the July 1 population. Quarterly rates have been annualized by multiplying the quarterly migration by four and dividing by the population at the start of the quarter.

Note to Readers

Regarding COVID-19

On March 18, 2020 the Government of Canada implemented travel restrictions aimed at reducing the spread of COVID-19. In order to try and account for the restrictions imposed by Canada, and other countries, Statistics Canada adjusted their usual estimation methods for Emigrants, Returning Emigrants and Net Temporary Emigrants. Beginning in 2021, as COVID-19 related travel restrictions started to lift, Statistics Canada modified their methodology adjustments to reflect a return towards pre-pandemic migration levels.

From the first quarter 2022 onward, Statistics Canada has returned to their usual estimation methods for Emigrants, Returning Emigrants and Net Temporary Emigrants. However, slight modifications are being made to ensure that pandemic effects are not carried forward into future estimates. No other COVID-19 related adjustments are being made at this time.

Birth Registration Delays

Birth estimation methods for Manitoba and Nova Scotia have been adjusted due to data availability issues for the 2021 calendar year.

Canada-Ukraine Authorization for Emergency Travel (CUAET)

Since March 17, 2022, persons with a Canada-Ukraine authorization for emergency travel who are on Canadian soil are included in the Net Non-permanent Resident estimates.
