

SPECIFICATION

Roadside Safety Devices

Designator: **TRTE01b**

Description: **THRIE BEAM TERMINAL
CONNECTOR**

Manitoba 
**Infrastructure and
Transportation**

Traffic Engineering

Thrie Beam Terminal connectors shall conform to the current requirements of AASHTO M180 for Class B. They may be either Type II (zinc coated steel) or Type IV (corrosion resistant steel). Corrosion resistant steel should conform to ASTM A606 for Type IV material and shall not be zinc coated, painted or otherwise treated.

Dimensional tolerances not shown or implied are intended to be those consistent with the proper functioning of the part, including its appearance and accepted manufacturing practices. Thrie Beam Terminal Connector may be supplied in the nearest Imperial, or English, units equivalent and corresponding manufacturing specification.

Thrie Beam Terminal Connector shall be supplied with the traffic face up.

Effective Date: September 1, 2001

Revised Date: January 31, 2011
