

# Additional Requirements & Approvals

Once all of the steps in the Livestock Technical Review Process have been completed, the livestock producer will need to fulfill other requirements (as appropriate) related to municipal by-laws and provincial regulations. These may include:

## Local Requirements

- Conditions related to the Conditional Use Order
- Development Agreement (with Municipality)
- Building Location Certificate
- Development Permit
- Variances

## Provincial Requirements

- Water Rights License
- Annual Source Water Monitoring Analysis Report
- Manure Storage Facility Permit
- Manure Management Plan
- Access permit (when on a Provincial Road or Provincial Trunk Highway)
- Building Permit \*

\*Agricultural buildings such as barns over 600 square meters (6,458 sq ft), now require a building permit from the Fire Commissioner's Office under *The Buildings and Mobile Homes Act* and the *Manitoba Building Code*.
