

To whom it may concern,

I am writing this letter with the concern of Kirk Kliever's request to increase his cattle herd . We live on SW 2-12-28, we already have a large cattle farm very close by, that we put up with smelly air and large concern of our ground water being unsafe to drink!!! I don't feel that this small area can handle any more to be safe for people to live and enjoy the outdoors!!!!

I ask for you to consider my concerns on this matter, so we can enjoy our home.

Thanks for your time.

Jack and Wenda Paton
