To whom it may concern,

I am opposing the Carey Colony expansion of barns.

We have some barns around us already, which cause quite the strong smell already, putting us indoors on beautiful days! I live at PR 205W.

The Carey Colony is actually the crystal springs colony outside of otterburne. They are quite removed from the existing barns already built as well as the proposed barns.

This proposal will put our property values (there are 6 houses in the area) to go down!

Thanks, for your attention to this and the letter to warn us! Please don't allow this expansion!

Ruth Brown

I am writing to voice my opposition to this expansion by the Carey Colony. I live at Carey at NE 36-5-3E, PR 205 West. We are a small community of families here that will be directly in the line of the odors produced by this operation. We already have barns to the northwest, northeast, and southwest of us, and this expansion will make these properties unbearable, and the air quality as a result of this expansion will directly reduce our property values.

As already stated I am opposed to this expansion as it directly affects my quality of life, and will do everything I can legally do to oppose it.

Your fellow citizen,

Rod Brown
