## Site Assessment

## For Large Livestock Operation Proposals

(300 Animal Units or more) whenever a municipal conditional use approval is required

#### **Purpose**

The establishment or expansion of a livestock operation that has 300 Animal Units or more and requires a municipal conditional use approval is subject to Part 7 of <a href="The Planning Act">The Planning Act</a>. This includes a review by the provincial Livestock Technical Review Committee (TRC). The <a href="Technical Review Committee Regulation">Technical Review Committee Regulation</a> requires a site assessment be undertaken by the proponent to help the committee complete its review and allow the public to comment on the proposal.

#### **Assistance**

For assistance in completing this Site Assessment form, the following resources are available:

- Site Assessment Footnotes and Site Assessment Supporting Documents
- The <u>Land Use and Development Web Application</u> for Municipal Tax Roll Numbers, development plans and zoning by-law information.
- <u>Manitoba Agriculture</u> for assistance with animal unit calculations, manure application field acreage calculations, agriculture capability and Manitoba Agricultural Services Corporation yields.
- <u>Manitoba Environment and Climate Change</u> for information on environmental regulations and assistance for obtaining any necessary permits and/or licenses regarding manure storage facilities, confined livestock areas, manure management plans, and water rights.
- Groundwater Management for Wells Table listing wells on project site and spread fields.
- Livestock Technical Review Co-ordination Unit for additional help.

#### 1.0 Description of Livestock Operation<sup>1</sup>

Legal name of operation:
Name of municipality:
Legal description: quarter, section, township, range, meridian or river lot(s):
Municipal tax roll number(s):

Prepare a Location Map of the project site. (see Location Map Example <sup>1</sup> ).
☐ 1. Location Map attached.
1.1 Nature of the Project <sup>2</sup> Indicate if the proposal is for a new or expanding livestock operation:
<ul> <li>□ New operation</li> <li>□ Expansion of existing operation</li> <li>□ Change of existing operation (no increase in Animal Units)</li> </ul>
If it is an existing operation, indicate when the operation was established:
State operation's original name if different from current:
Describe what is being proposed:
State if any existing buildings will be replaced or demolished. If existing buildings will be reused or expanded, state how they will be reused or expanded. Note: Certain proposals involving the replacement or alteration of existing animal housing may be exempted from conditional use approvals and provincial technical reviews. To determine if you may be eligible, refer to the <a href="Frequently Asked Questions">Frequently Asked Questions</a> document and contact your municipal office.

#### 1.2 Project Site Plan

Prepare a Project Site Plan. Show all existing and proposed buildings, additions to existing buildings and any existing or proposed confined livestock areas as well as separation distances on an aerial photo. See the <u>Project Site Plan Example and Guide</u> for assistance.<sup>3</sup>

2. Project Site Plan attached.

#### 2.0 Current and Proposed Type and Size of Operation<sup>4</sup>

In the <u>Animal Units Calculator</u> insert the total number of animals for each animal category associated with the <u>current</u> and <u>proposed</u> operation.

3. Animal Units Calculator attached.

#### 3.0 Animal Confinement Facilities

Based on the nature of the proposed project, indicate each type of animal confinement facility<sup>5</sup> to be found on site (post construction). Note the animal category of each facility or area and its size and check off the type of project it is.

**Table 3-1: Animal Confinement Facilities** 

Type of structure			Type of project			
Animal confinement facility <sup>5</sup>		Structure size (square footage)	New construction	Replacement	Alteration	Use existing as is
Barn	Animal category					
(1)	existing breeding/gestation barn					~
(2)	existing farrowing barn					~
(3)	existing quarantine barn					~
(4)	office/ loadout/ farrowing barn	375' - 6" x 116'	~			
(5)	sow gestation barn	287 - 8" x 116'	~			
(6)	quarantine barn	34' x 116 ft	~			
Outdoor area						
(1)						
(2)						
(3)						

None of the above

#### 4.0 Confined Livestock Areas

Based on the nature of the proposed project, indicate each type of confined livestock area<sup>6</sup> to be found on site (post construction). Note the animal category of each facility or area and its size and check off the type of project it is.

**Table 4-1: Animal Confinement** 

Type of structure  Confined Livestock Area <sup>6</sup>		Structure size (square footage)	Type of project			
			New construction	Replacement	Alteration	Use existing as is
Feedlot						
Paddock						
Corral						
Exercise yard						
Holding area						

None of the above

## 5.0 Project Sites Unsuitable for Development<sup>7</sup>

Will the proposed confined livestock area and/or manure storage facility be located within Nutrient Management Zone N4<sup>8</sup> or any Nutrient Buffer Zone?<sup>9</sup>

Vo	No
١	١

#### 6.0 Water Source

Indicate the type of water source for the operation (check all that apply):

V	Pipeline (public)/water coop	perative	
	Proposed well – location: _	No useable aqu	ifers producing water of sufficient quantity and quality.
	Existing well – location:	N/A	
	Dugout or reservoir - source		Filled from class 3 drain bordering south property line.
	Other, describe:	-	

#### 6.1 Access to Surface Water<sup>10</sup>

✓ I acknowledge livestock from my operation, located in a confined livestock area or seasonal feeding area, will not have direct access to surface water.

#### 6.2 Water Requirements<sup>11</sup>

project site

Estimate the total water us	se for your project using the Water	Requirement Calculator.	
6.2.1 Maximum daily wat	er use:		
	☐ Imperial gallons	☐ Litres	
annual 6.2.2 Maximum <del>daily</del> -wate	er use:		
	☐ Imperial gallons	☐ Litres	
☐ 4. Water Requirement	t Calculator attached.		
7.0 Developme	ent Plan <sup>12</sup>		
Using the Land Use and E provide the following inform		e municipality's development plan by-law,	
	Table 7-1: Develop	nent Plan	
Name of planning district (if applicable)			
Name of municipality			
Development plan by-law number			
Land use designation of	Af .		

#### 8.0 Zoning By-law<sup>13</sup>

Using the <u>Land Use and Development Web Application</u> and the municipality's zoning by-law, provide the following information:

Table 8-2: Zoning By-law

Zoning by-law number:						
Identify zone of project si	Identify zone of project site:					
Identify minimum project	site requirements as per zoning b	oy-law:				
	Proposed project site dimensions	Zoning by-law project site requirements				
Minimum site area						
Minimum site width						
Minimum front yard						
Minimum side yard						
Minimum rear yard						

## 9.0 Separation Distances (zoning by-law)<sup>14</sup>

Using the proposed size of the operation (see <u>Animal Units Calculator</u>) and the type(s) of animal housing and manure storage facilities, provide the following:

**Table 9-1: Separation Distances** 

	Indicate minimum separation distance required in the zoning by-law to the following listed land use features (if applicable).  Check appropriate box(es):		minimum sep	feature is <u>less than</u> the aration distance required ng by-law complete this section:
	☐ Earthen manure storage facility	☐ Animal confinement facility	Provide actual distance	Provide location or name of feature (e.g., Red River)
	or	or		
	☐ Feedlot	☐ Non-earthen manure storage facility		
Decidence/dualling	ft	ft	ft	
Residence/dwelling	II.	II.	ft	
Designated area	ft	ft	ft	
(non-agricultural)	π	π	ft	

If any separation distance is less than the zoning by-law minimum, a variance order will be required from the municipality.

9.1 Land Use Map
Indicate the following on a Land Use Map (see <u>Land Use Map Example</u> ):
<ul><li>a) Location of the project site.</li><li>b) Land uses and significant features including dwellings (not related to the proposal) within a three-kilometre radius of the project site.</li></ul>
□ 5. Land Use Map attached.
10.0 Wells <sup>15</sup>
Are there any known unsealed abandoned wells on the project site or spread fields?  ☐ Yes ☐ No
10.1 Well Locations  Provide Groundwater Management with locations of project site and spread fields. Groundwater Management will respond with a Wells Table listing wells, as identified on provincial wells database.  In provided Wells Table, add any known wells not already identified using additional rows. Provide additional information as needed.  Identify the location(s) of known abandoned and active wells on the Project Site Plan (Section 1.2) and Spread Field Maps (Section 18.0), as applicable.
☐ 6. Wells Table attached
11.0 Water Control works <sup>16</sup>
Are new control works being proposed?
☐ Yes ☐ No A new water pond will be added to store the extra water needed for the expansion to 5200 sows and 280 gilts.
Are you (the operator) aware of any seasonal, semi-permanent or permanent wetlands on the project site? If yes, identify the location(s) in the Project Site Plan.
☐ Yes ☐ No
12.0 Manure Type and Storage <sup>17</sup>
12.1 Manure Type Indicate the type(s) of manure that will be generated:  ☐ Solid ☐ Semi-solid ☐ Liquid
12.2 Manure Storage Type and Construction
Indicate if the operation is planning to construct, modify or expand a manure storage facility <sup>18</sup>

or use an existing manure storage facility:

☐ Modify

☐ Use

Existing

☐ Not

Applicable

☐ Construct ☐ Expand

Indicate the type of manure storage that will be used by the operation: (check all that are applicable)
☐ Concrete tank
☐ Steel tank
☐ Earthen manure storage facility
☐ Permanent solid manure storage facility
☐ Molehill manure storage facility
☐ Under-barn concrete manure storage facility (30-day capacity or greater)
☐ Permanent manure composting facility
☐ Field storage
13.0 Mortalities Disposal <sup>19</sup>
Indicate the type(s) of mortalities disposal:
☐ Rendering
☐ Composting
☐ Incineration (in approved incinerator only)
☐ Landfill
Other (describe):
Other (describe):
Does the proposal include a permanent site for composting mortalities that will use manure? <sup>20</sup>

# 14.0 Setback Distances from Manure and/or Mortality Sites to Water and Operation Boundaries

Use the following table to indicate the proposed setback distances from water and property lines. Provide the name of the feature.

Table 14-1: Setback Distances from Manure and/or Mortality
Sites to Water and Operation Boundaries

Feature	Structures	Minimum setback distance (m) <sup>21</sup>	Proposed setback distance (m)	Provide location or name of feature (e.g., Red River)
	Manure storage facility	100 m		
	Field storage	100 m		
Surface watercourses,	Manure composting site	100 m		
sinkholes, springs or wells	Confined livestock area	100 m		
	Mortalities disposal site	100 m		
	Mortalities composting site	100 m		
Property line	Manure storage facility	100 m		
	Manure composting site	100 m		
	Confined livestock area	100 m		
	Mortalities composting site	100 m		

			anatian halauu	
any setback dis	stances have not bee	en met, provide expi	anation below:	

## 15.0 Building in Flood Areas<sup>22</sup>

Using the links below, determine if any proposed structure will be in a Designated Flood Area.
Red River Valley Designated Flood Area
Lower Red River Designated Flood Area
Are any of the proposed structures in a Designated Flood Area?
☐ Yes ☐ No
4C.O. Odavin Cantral Magazinas (Duaicat Cita)
16.0 Odour Control Measures (Project Site)
Indicate which odour control measures are planned.
Manure storage cover:
Yes No Not applicable
If yes, type of cover:
Shelterbelt planting:
☐ Yes ☐ No ☐ Existing shelterbelt
Other measure (specify):
17.0 Land Available for Manure Application <sup>23</sup>
17.1 Land Calculation
Fill out and attach the Manitoba Land Calculator <sup>24</sup> to determine the minimum number of acres for the manure nutrients.
From the calculator, indicate:
Acres for Nitrogen uptake: <sup>25</sup>
Acres for Phosphorus removal: <sup>25</sup>
7. Copies of long-term Manitoba Agricultural Services Corporation (MASC) yields <sup>26</sup> attached.
■ 8. Manitoba Land Calculator attached.

Contact Manitoba Agriculture at 204-918-0325 in Winnipeg if assistance is required.

Site Assessment

### 17.2 Long-Term Environmental Sustainability

From the Manitoba Land Calculator, indicate acres for Phosphorus balance: <sup>27</sup>
□ I acknowledge that the amount of acres indicated in the Manitoba Land Calculator up to acres may be required for Phosphorus balance (one times crop P <sub>2</sub> O <sub>5</sub> removal) and the long-term environmental sustainability of the operation.
17.3 Characteristics of Manure Application Fields <sup>28</sup>
Fill out and attach the Manure Application Field Characteristics Table.
Provide Spread Field Maps of land available for manure application along with their agricultural capability (see <a href="Spread Field Map Example">Spread Field Map Example</a> ).
For all land available for manure application, attach copies of soil test reports that are no more than 36 months old and that demonstrate that soil phosphorus levels are below 60 ppm Olsen P in the top six inches (15 centimeters) of soil.
☐ 9. Manure Application Field Characteristics Table attached.
☐ 10. Spread Field Map (showing agricultural capability and field boundaries) attached.
☐ 11. Soil test reports for the land available for manure application attached.
18.0 Setbacks for Manure Application
Have the regulatory setbacks <sup>29</sup> and all water features been observed and excluded from land base calculations for this operation?
☐ Yes

19	9.0 Manure Transportation and Application
Will	I a commercial manure applicator be used?³٥
	Yes  No
lde	ntify the proposed transportation method:
	Tanker
	Dragline
	Solid spreader
	Other:
lde	ntify the proposed application method(s), (check all that apply):
	Full/true injection
	Partial injection (Aerway or Coulter)
	Low-level broadcast application
	High-level broadcast application
	Immediate incorporation
	Incorporate within 48 hours
	No incorporation – provide reason:
19.	.1 Season of Application
	ntify the proposed timing of application (check all that apply):
	Spring
	Summer (e.g., to a growing crop)
	Fall
	0.0 Manure Application on Lands Subject to Frequent ooding or Inundation <sup>31</sup>
Are <u>Mai</u> yea	e any of the lands available for manure application located in the Red River Valley Special nagement Area or another area that is subject to flooding on an average basis at least once every five ars?

☐ Yes ☐ No

## 21.0 Projected Truck Haul Routes and Access Points<sup>32</sup>

Complete the following table:

Table 21-1: Truck Haul Routes and Access Points

	Estimate number of day acc	Access from PTH/PR onto site will mainly require a left or right hand turn (please check one)				Access onto PTH/PR from site will mainly require a left or right hand turn (please check one)				
Vehicle type	Provincial Trunk Highway (PTH)	Provincial Road (PR)	Provincial Trunk Highway (PTH)		Provincial Road (PR)		Provincial Trunk Highway (PTH)		Provincial Road (PR)	
	(F111)		LEFT	RIGHT	LEFT	RIGHT	LEFT	RIGHT	LEFT	RIGHT
Truck										
Tractor trailer										
Other, specify										

Identify on a map the roads and access points that will be used for the proposed operation (see <u>Truck</u> Haul Routes and Access Points Map Example).

☐ 12. Truck Haul Routes and Access Points Map attached.

#### 22.0 Conservation Data Centre Report

A Conservation Data Centre (CDC) Report is required for lands associated with the development where facility development or manure application will occur on Crown lands or, for all other lands, there is a change in land use or activity that could negatively impact the habitat of species at risk in Manitoba. Changes of use or activity include:

- the development of new sites
- land clearing
- conversion of land to cropland

A CDC Report is not required for existing operations that will not be utilizing Crown lands, not be developing or converting land, and not be changing practices in a manner that could impact habitat.

Conservation Data Centre report requests may be submitted electronically to: <a href="https://gov.mb.ca/nrnd/fish-wildlife/cdc/request.html">https://gov.mb.ca/nrnd/fish-wildlife/cdc/request.html</a>
Are any parcels of land Crown land?   Yes   No
If yes, legal land location(s):
Are any parcels of land going to be cleared for development? $\ \square$ Yes $\ \square$ No
If yes, legal land location(s):
Are any parcels of land going to be converted to crop land?   Yes   No If yes, legal land location(s):
☐ 13. Conservation Data Centre Report attached. Not Required for this site assessment.
Were rare species identified in the Conservation Data Centre Report?  ☐ Yes ☐ No
23.0 Additional Information Include any additional information you deem helpful for the Technical Review Committee to review your proposal.
