

## 1.0 Location and Site Descriptions

### 1.1 Location of Divorne Farms Facilities and Livestock Operations

Divorne Farms has livestock and related structures located across three quarter sections (Figure 1) within the RM of Grey. The primary location is on SE-08-008-06WPM (Site 1). This is where the primary residence is located along with the main dairy barn to be rebuilt and supporting structures. Divorne Farms also has additional livestock facilities at a secondary location on acquired properties at SE-06-008-06WPM and SW-05-008-06WPM (Site 2).

**The combined operations at both Site 1 and Site 2 will serve a dairy operation for a proposed 1750 dairy cows (3500 animal units).** Site 1 may accommodate up to 3500 animal units (AUs). Site 2 will accommodate a maximum of 533 AUs during the winter months. In addition, Divorne Farms also uses the north half of 36-007-07WPM in the RM of Dufferin for pasture purposes for up to 400 livestock (348 AUs) from Site 2 during the summer months.
