- A. Use Well IDs as provided in Wells Table to identify known wells in Spread Field Map(s).
- B. Enter the legal description for each parcel of land on which a well is located - i.e., Sec-Twp-Rge or RL (including parish).
- C. Identify the municipality in which the parcel is located.

- D.** Provide description of well location, including GPS coordinates if available. Indicate accuracy of well coordinates, if provided, as: Exact [$<10\text{m}$ - GPS]; Very Accurate [$<50\text{m}$ - ortho mapped]; Accurate [$50\text{-}350\text{m}$ - within $\frac{1}{4}$ section]; or Fair [350m - 1km - within section]
- E.** Identify the source of the data or information provided in description of well location (e.g., Groundwater Management, well drilling contractor, landowner, ...).
- F.** Indicate whether well is active, abandoned, or status unknown.
- G.** Provide any further comments necessary to clarify location, nature, or status of well, or to indicate that no well is known at this location.
