23	NW12-9-6E	Tache	O	property line, yard	96	3W	9.3
21-22	S1/2 12-9-6E	Tache	O	property line, yard	290	2W-3W	7.0
18	NE6-10-7E	Springfield	O	property line, yard, drain	154	2W-3W	52
17	N1/2 SW6-10-7E	Springfield	O	property line, domestic lagoon	61	2W-3W	30.7

Total net acreage for manure application: 3657 acres

- Enter the legal description for each parcel of land that will receive manure: Sec, Twp, Rge or River Lot (including parish).
- Identify the Rural Municipality in which the parcel is located.
- Indicate how the land has been secured for manure application: O – Own / C – Crown / L – Lease / A – Agreement. Multiple designations may be used as appropriate (e.g., C/A for Crown lands that are under a spread agreement with the producer that holds the agricultural Crown land lease).
- Enter setbacks from surface water or groundwater features that reduce the land available for manure application; include identification of type of feature (e.g., 8m, Order 3 drain).
- Enter the net acreage available for manure application for the parcel after taking into account setbacks and excluding Class 6, 7 and unimproved organic soils.
- Enter the agriculture capability class and sub-class ratings for the acreage available for manure application.
- Provide soil test results for Phosphorus in ppm Olsen P for soil samples taken at the 0-6 inch depth. Soil test results must be no more than 36 months old and must be completed by an accredited soil-testing laboratory.

Manure Application Field Characteristics Table

[illegible]

Total net acreage for manure application: 273 acres

- A.** Enter the legal description for each parcel of land that will receive manure: Sec, Twp, Rge or River Lot (including parish).
- B.** Identify the Rural Municipality in which the parcel is located.
- C.** Indicate how the land has been secured for manure application: O – Own / C – Crown / L – Lease / A – Agreement. Multiple designations may be used as appropriate (e.g., C/A for Crown lands that are under a spread agreement with the producer that holds the agricultural Crown land lease).
- D.** Enter setbacks from surface water or groundwater features that reduce the land available for manure application; include identification of type of feature (e.g., 8m, Order 3 drain).
- E.** Enter the net acreage available for manure application for the parcel after taking into account setbacks and excluding Class 6, 7 and unimproved organic soils.
- F.** Enter the agriculture capability class and sub-class ratings for the acreage available for manure application.
- G.** Provide soil test results for Phosphorus in ppm Olsen P for soil samples taken at the 0-6 inch depth. Soil test results must be no more than 36 months old and must be completed by an accredited soil-testing laboratory.
