Share Your Feedback on
Safely Reopening Services and Activities in Manitoba

Manitoba Public Health has indicated that Manitoba is in a position to now consider reducing some restrictions and safely restoring some services and activities.

Manitobans are invited to provide feedback on safely restoring services and activities in Manitoba through a survey located on the Engage MB website page:

<https://engagemb.ca/restartmb-pandemic-response-system>

All municipalities are encouraged to participate as soon as possible to ensure that we have the opportunity to consider your feedback.
