

Bulletin #2022-31

MUNICIPAL RELATIONS

Notice to All Chief Administrative Officers

**New Member of the Municipal Relations
Leadership Team**

The Department of Municipal Relations is pleased to announce that Don Hallett has joined Municipal Relations as the new Assistant Deputy Minister of the Municipal Assessment and Advisory Services Division.

Don joins our department after making significant contributions over more than two decades to senior leadership in major program areas of what are now the provincial departments of Natural Resources and Northern Development and Environment, Climate and Parks. He effectively listens to, leads and mentors diverse teams to always improve together. He also fosters and strengthens relationships across provincial government departments and with municipal, federal and Indigenous counterparts and other stakeholders.

The division he will be leading supports sustainable and accountable municipalities by delivering accurate property assessments as well as sound advice through trusted relationships with municipalities on good governance and financial practices. This includes the work of assessment services, IT system services, and municipal governance and advisory services to municipalities primarily delivered through our municipal services officers.

We look forward to Don's continued contributions to team building and public service in collaboration with you as expert administrators and leaders.

Don's contact information has been updated on the directory.

Should you require additional information regarding staff contacts in Municipal Relations please email us at mrmaas@gov.mb.ca, or by phone at 204-945-2572.
