PAYMENTS IN LIEU OF TAXES - 2023

Manitoba continues to phase out education property taxes by implementing the School Tax Rebate program in 2023. Federal government agencies and departments have withheld Payments in Lieu of Taxes (PILT) owing to municipalities for federal properties in their region.

Manitoba will once again ensure municipalities do not experience a loss in revenue due to the shortfall in PILT payments from the federal government equivalent to the School Tax rebate in 2023.

Municipalities have a legislated requirement under the Public Schools Act to remit the provincial Education Support Levy and school division Special Levies by January 31 of each year. Municipalities do not have the authority to withhold any owing amounts.

More information regarding the process and payments related to PILT will be provided in coming months.
